THE NEW YEAR'S GIFT

THE NEW YEAR IS HERE with her great gift to all men - OPPORTUNITY.

As the clock of the universe strikes out the old year, old hopes and ambitions are renewed in the hearts of all men on the face of the earth.

The discouraged face their problems, shedding their disappointment as a dirty coat. When they roll up their sleeves again they find the world's their hickory-nut, and they're the ones to crack it.

The heartsick with nothing but shattered dreams find resurrection in the New Year. Out of the broken fragments of hopes long relinquished comes something beautiful.

The old in years find that a man is only as old as his will and that there really is a place for them, work to do, meeds for their purposes, a goal still for their high emprise.

No man sinks in the waters of fate but the one cramped with fear. The New Year reminds you to keep kicking and keep floating.

The New Year is your friend! She brings you her greatest gift, if you will but open your heart. And the opener of hearts is courage.

DONALD GENE SWALLS MISSING IN ACTION

GENE SWALLS, who left the plant for military service in August 1951, has been listed as "missing in action." From the few reports which have reached his parents, Gene was on his seventh or eighth bombing trip. A friend of the family called his officer in Okinawa and she was informed that the crew might be alive but he did not know if they were prisoners.

Gene was with the 28th Bomb Squadron, 19th Bomb Group. About a year ago he wrote the Spirit a letter saying how much he enjoyed reading about the fellows that he used to work with. He added "I sure wish PAUL BOWMAN and I were back putting in light bulbs together with a little of RAY HIGGIN'S supervision....."

Our prayers go to the family of this fine young man. May they hear from him very soon.

JERALDINE HARMON WINS D.A.R. AWARD

JERALDINE, attractive daughter of WAYNE HARMON (Ribo) has been presented with the D.A.R. award. Miss Harmon, a senior at Fayette High School, has served as yearbook queen, cheer leader, a member of the student council, 4-H Junior Leader, yearbook editor, and has been on the honor roll during her entire school life.

Our congratulations, Jeraldine.

EISENHOWER HAS STALWART SUPPORTER AT CSC

5-year old IMANT DANGA, who arrived in America with his parents just last March, watched the presidential inaugueration with great interest. The next morning he announced "I want to do something extra good in honor of IKE today."

JEROME L. ROGERS

JERRY, son of ZAFF ROGERS, died of polio at the Navy Hospital, Portsmouth, Virginia January 9th. Jerry was stricken shortly after his return to Portsmouth from Terre Haute where he had spent the holiday season.

Services for him were held from the Martin Funeral Home last Thursday with burial at Roselawn Memorial Park. Our deepest sympathies go to the parents, his sister, and a brother who is with the Navy in Japan.

ALSO SINCERE SYMPATHIES TO: PATTY GARVIN (SOUTH PLANT) whose grandfather, contractor GEORGE ROEHM, died this week.....to PEARL SMITH in the loss of his brother; to CECIL CLTON whose stepmother passed away...

THANK YOU FRANK J. CHANOVITZ of HASBROUCK HTS, N.J., for your wonderful greeting to the SPIRIT. Mr. Chanovitz is one of Carlstadt's retired - a great person.

HEY, LOOK WHO'S FIXING FORMULAS!!!

In a letter from Proud-Papa JIM NEERMAN, we are informed that it's a new daughter CAROL LOUISE, born Sunday, December 28th at Mount Carmel Hospital, Detroit. The young Miss Neerman weighed 6# 2 oz....

IT's a FIRST for the JAMES WORRELLS. 7# 6 ounce MICHAEL ROBERT arrived at the Saint Anthony nursery, January 12th, at 9:10 PM. MIKE's Dad works in Ribo.

The IRA CAMPBELLS have another dollbaby at their house. JEAN MARGARET's arrival was clocked at 10:17 PM, January 17th, at Union Hospital. She weighed 6#9oz and has a big sister, LEE.

If you want to find GRANDPA CHURCHILL, look up among the rafters in the machine shop. Ever since his grandson, WILLIAM MARK, arrived January 19th, he's been floating in thin air. The baby belongs to his daughter MARY ANN LUNDSTROM and was born in Ashland, Kentucky.

SO YOU DIDN'T CHANGE YOUR ADDRESS!

Sending out the W-2 forms to the addresses which are shown on Personnel Records is not too good sometimes. They come back! If you have moved recently and have not notified Time Office, by all means do so. The poor dear mailcarrier has enuf troubles.

THANKS TO ALL THE REPORTERS WHO ARE SO WONDERFUL ABOUT SENDING IN NEWS FROM YOUR RESPECTIVE DEPARTMENTS. Sheets asking for Spirit News are sent to each department in the plant one week before the newsletter is printed . If your department is not included in Spirit, why don't you do something about it? About half the sheets requesting information must land in the wastebasket. They never come home.....

NOR'WAY 63, VISKING 65

NOR'WAY lost a closely contested game to the Visking Corporation last Sunday by a 2-point margin. CARL LESLIE was high scorer for NOR'WAY while RONNIE BLAND led the winners.

CSC BOWLING NEWS - CARLSTADT, NEW YORK, NEWARK

The bowlers who were unfortunate enough to be absent from last night's session missed a free bowling lesson. "CAP" PRESTON, who's potential game, many of us felt, was far better than what he's been showing heretofore, came up with a 479 series; his high game being a 190. Many of the Magi will say he should have waited though since next week we're having a Bottle Roll - but then "CAP" wants the boys to know what they're up against....The SPLITTERS won THREE by virtue of "no contest." The STIFFS took two from the TRAILERS but the boys were nervous. Everytime the phone rang, they thought it was the foul-line judge.

200 GAMES, MEN'S BOWLING LEAGUE, TERRE HAUTE - W.BECK 202, O.HERNER 210-219; PAUL TAYLOR 203, J.PENSACK, 202; G.THOMAS 201; H.WOLFE 201; G.B.BROWN 201; A.C.MILLER 213; E.KANTZ 200; R.KEEGAN 224; R.BYERS 206. R.BYERS had 588 for high series,HERNER 581.

RIBO RAVINGS — BOB HANN, Shift 3

Anyone desiring lessons in breaking in a beagle hound, contact BOB MONTGOMERY. He has one that hunts rabbits. If there are no rabbits, he trees squirrels, chases foxes or points birds. For versatility, he is a jewel.

The shift 3 fellows are wondering if "SNAP" HILBERT is the "Television Expert" that he boasts he is, or is he just the hot current that blows out the tubes.

We wish Wiley's B team would start winning some ballgames so MARK LEE would smile a little. His son is a starter on the team... Wishful thinking: That the Ribo bowling team could win undisputed First Place in the second half of the league.....

PENICILLIN FINISHING

Penicillin Finishing family has been increased by eight girls, -BARBARA POUNDS, WILMA MCDANIELS, MARY ROLLINGS, NETTIE DONHAM, OPAL HENDERSON, BARBARA BUTTS BAUERS, MARY ELLEN SHEPHERD and again, that little HELEN GOODWIN. - Also some men - JIM WATSON, BILL THOMPSON, GEORGE HART (from way down New Mexico way) and BOB PAYNE.... BILL HAYS has been to surgery and back. Everyone is happy with his rapid recovery.

The Penicillin gals are proud of their bowling team who won second place. The team includes NELLIE "SHORT STUFF" HARDING, ROSIE "CAPTAIN" WEBSTER, WILMA "TURKEY" ROONEY, MARTHA "MERT" PRICE, FLORENCE "BLONDIE" ROGERS. Congratulations! We hope to see you in First Place next time.

In the jewelry division, VELMA STUFFLES' lovely diamond was placed there by FLOYD REED. The "I Do" date is March 14th. JOANNE GOODWIN and JOHNNY LUCAS are admiring the same ring..... PATTY MCCLURE arrived at voting age the other day.... REGINA ROYER is back from a vacation spent with her soldier husband....

PENICILLIN PLANT

When DOT HARVEY was asked how she broke her glasses she said that she fell on the ceiling. Now, really, Dot!.....The animal house is still smacking their lips over the delicious turkey dinner. Tom Turkey brought with him his pals, Olive, Oyster and Celery..... MAXINE OSBORNE is helping BARB DUBBS over at Bacitracin.....

Spring has come to pen plant. Spring cleaning, that is. No diamond gives off as much sparkle as the newly shined furniture in the lounge. Thanks to a few of the girls from downstairs...Thank goodness, Leap Year is over. The girls have a much better chance for matrimony during the other three years. The stronger sex is too afraid of being kidded should they marry the gal in Leap Year. This from the Sage of the Pen Plant....

SPECIALTIES PLANT NO. 3

CARL LESLIE was given a rousing welcome-back from his old buddies in Specialties. After two years punching timecards for Uncle Samuel, it's plenty wonderful being home. Korea was never like Lockport hill.

ORDER DEPARTMENT

The order department is full of bowlers, all fired up for the big second half. Three of these femmes were on the office team which finished third in the first half. They are CHARLOTTE RINGHAM, CAROLYN MEADOWS and FRANCES ZIMMERMAN. The men in the office - VIRGIL HAMELMANN, HOWARD SUTTLE and CARL ATKINSON, finished in fifth place on their team...

Should anyone find anything, other than coke in their coca cola bottles, VIRG HAMELMANN will get your money back plus 100 per cent interest.....MRS. JOHN BURKE, nee EUNICE SCHWARTZ entertained the Order Department with a mighty fine spaghetti dinner, and then took a trip to Florida to rest up. (That gang must eat a lot). EUNICE is now home to her many friends at 1235 South Center.....The almost-new gal in order department is KATHLEEN SINCLAIR....When you hear a cheery "Good Morning, Mr. Suttle's office," that's CHARLOTTE RINGHAM on the job....Everyone is busy discarding 1952 files to make way for a Big 1953.....Some television viewers could have sworn they saw TOMMY POTTER near the inaugeration activities last Tuesday...

MACHINE SHOP GRANDFATHERS. (Census taken 1/19/53) LES BOYLL, BYRON CONRAD, LOUIE PELKY, RAY FULTON, GLEN CHURCHILL, ROY LAFOLLETTE, HENRY BIEWEND, CLIFF KYLANDER & GEORGE HAMMERLING, CHARLIE SCHILLING is NOT a grandfather.....

BETTY HUGHES AND THE NEWS

Dr & Mrs. KLUSSENDORF spent Christmas with their son and daughter-in-law, JOHN & JEAN, at Albuquerque. JOHN was commissioned a Lieutenant in the regular army when he was graduated from the University of Illinois last June. He is attached to the 2nd Very Heavy Artillery Support Group at Sadine Base. This is a newly organized unit engaged in a study of special weapons now being developed.

All is quiet in GUIDO MIESCHER'S lab. Guido misses the patter of little feet. Not wanting to thrust WHITEY, the mother mouse, out into the cold cruel, world, he used the chloroform route. Her three offspring were given their freedom.

Funny-who-you'll-run-across item: When Dr. Phillips moved into room 315 he met a little mouse. Dr. MIESCHER identified it as one of his trio, so he gave it to Dr. HICKEY. Mouse No. 2 showed up in WALTER GERARD'S department trying to get out of a waste can. Dr. MIESCHER claimed him also, fed him a peanut. He died.

Personalities: DR. BYRNE left CSC January 16th.....STELLA MARKOWICZ moved to lab 303....ROGER HARNED now occupies room 312....DR. PHILLIPS and family spent last weekend in Bloomington, visiting Mrs. Phillips' mother...BETTY HUGHES enjoyed the Purdue University Glee Club when they sang a program at the Brazil High School, January 11th. This noted group of singers were enroute to Washington D.C. where they participated in the inaugeration festivities.....

OPAL HENDERSON, MARY ROLLINGS, MAXINE OSBURN, HELEN GOODWIN, WILMA MCDANIEL and BARBARA FOUNDS are transferred..To Penicillin.....

MARY MARTHA PARKER transferred to the Patent Department January 14th. She will occupy the position vacated by TASSA GEORGE....Messrs CARSWELL & BACHMAN spent Jan. 12th at the Northern Regional Research Laboratory, Peoria.....BETTY HUGHES and her car did a bit of cavorting on an ice-glazed highway out by Miami Gardens. She ended up among a clump of trees.

In last Spirit we mentioned that MRS. CRAIG'S little daughter locked her mother out of the house. This was wrong. Mrs. CRAIG accidently locked herself out of the house. SARAH GAYE was fast asleep and could not be wakened, hence the hurry-up call to George.....

DR. CAMPBELL'S-EYE VIEW OF RESEARCH

This week we bade farewell to DR. SHIRLEY LINGO and DR. RAY DALTER. SHIRLEY joins the Nitrogen Division of Allied Dye & Chemical, while RAY assumes an administrative post with the Franklin Institute.

A. MOSHER COOKE of CSC at Charlestown, Massachusetts was placed on the Manpower Advisory Committee of the Northeastern Section of the American Chemical Society, it was announced in The Nucleus. (This information was sent us by DR. PHIL BAKER.)

ENGINEERING DEPARTMENT WELCOMES HUMPHREYS

R.S.HUMPHREYS recently joined the Engineering Division. He comes from Templeton-Matthews Corporation, a local concern. The Humphreys and their daughter, Sherry, live at 115 Marigold Drive in Hulman Meadows. He is a graduate of Purdue University.

ANIMAL NUTRITION DIVISION - Shirley Armstrong reporting

We didn't mean to keep KATHLEEN McAULIFFE a secret. She has been with CSC since last September and this is the first time she has been publicly welcomed to our Company via the Spirit....Another more recent addition is MARY HERT who worked for Solvents several years ago. We are glad to have her back. She is the sister of RUTH PROVENCE.....

DON HOFF, Pharmaceutical Division, has moved here from Kansas City. His headquarters is 105 South Seventh Street.....SHIRLEY ARMSTRONG works with DON HOFF. On the second day of work she showed up with a black eye, numerous scratches on her face - and a diamond ring!

DERIVATIVES- SHIFT NO. 1

FREDDIE SCARBROUGH is still after the minks and giving them a hard time...EARL PEARSON, WM MARTIN & JIM ROMAN went rabbit hunting Jan. 10th. Last day of the season... We have HUGH POWERS on No. 1 shift breaking in on the new Methanol & Butanol tank Recovery. HAROLD HALLOCK is breaking him in. JOE ROMAN praises LEE WEBB for getting his prey. He tracked a crippled rabbit a mile thru the strippers & finally got him. HERSHEL WEBB, ERNEST LAUFMAN, HUGH POWER, MAX BAILEY, BOB BLAKE & RAY HERRINGTON were welcomed to Derivatives....BOB FINCH'S TV worked overtime on Inaugeration Day.

A HAPPY '53

CSC GETTING LOW ON APPELLS

December 31st: The Solvent's larder has only two APPLES left since GEORGE up and retired today. We still have a good supply of BUTTER, BERRY, HERBS, PIGG,. RICE, WHEAT-LY and SHEESE.

An impromptu farewell party sans refreshments took place, Wednesday, December 31st in the Purchasing Department when several of his friends met to wish GEORGE APPELL a happy retirement.

GENE BOROUGHS was the Toastmaster for the occasion and made quite a number of wise observations such as "The longer we are here the more people you see come and go," etc. He dwelled for a moment on GEORGE as a family man with an adorable wife, a beautiful talented daughter; and about his extracurricular activities - "Good at bowling, tennis and shooting the breeze.."

He recalled nostalgically about the time George mixed up a batch of Park Avenue Gin, got the scales weights all mixed up. The results must have been wonderful!

Departing APPELL was presented with a two-suiter traveling bag.

The following note was later received from him:

"Hail and Farewell to my fellow workers at CSC

"Again you tendered me a gift-presentation send-off. I am truly grateful, not only for the beautiful traveling bag but even more for your expressions of affection and esteem rendered in a vein of laugh-provoking good humor

"After all, there was nothing weepy about my going out to pasture. Remember in '45 you gave me a similar send-off, and I was back inside 15 months. Lookout lest history may burp itself.

"Truthfully, I should have been the one handing out gifts to each and everyone of you because I have been your debtor. For years I have received from you a "pearl of great price" - 100% cheerfully responsive cooperation in the accomplishment of all our work assignments.

"It is a possession in which I take far more pride than all else, because there was no title of command-authority invested in me. I was just "George ,your fellow-worker." You made it the happiest personnel relationship of my entire career."

ACCIDENT-FREE RECORD

Terre Haute set a new accident-free record of approximately 985,000 man-hours by working from July 18 to December 26 without a lost-time accident. On the latter date one of the men in the Boiler Room suffered a broken leg. The accident occured when a portable compressor was moved across a wooden cover on the ash sewer. One wheel broke through throwing the machine against the man's leg.

Although the accident stopped the record just three days short of the coveted million man-hours, it showed that such a record is not beyond possibility. The previous record of 584,266 man-hours was almost doubled. It show that the Terre Haute Plant is working to prevent accidents and knows how to do it. Each job must be planned with safety as a guiding factor. Each job must be performed the same way.

It is too early to start talking about the present 1953 record. But it's a perfect one and the kind of a start needed to make new records. So, as GENE BOROUGHS says, "Let's make '53 accident-free."

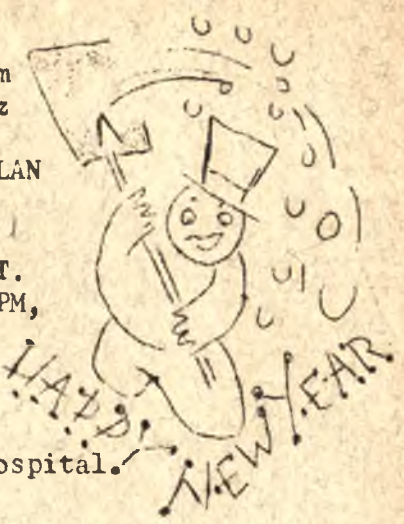
INTERPLANT CONTEST

Official frequency rates covering the first eleven months of the 1952 Interplant Contest are as follows:

Dixie	0.00	New Orleans	12.58
Newark	0.00	Peoria	13.87
TERRE HAUTE	3.43	Carlstadt	29.96
Agnew	12.53	ALL PLANTS	6.01

The frequency rate is the number of lost-time accidents per million manhours.

THE DIAPER LINE



She was born on Christmas Day, so naturally you'd expect them to call her YULE-IET or POINSETTIA, but no, the cute 7#10oz bundle was named KAREN SUE. Her proud parents are the CLIFFORD BIGGERS; Union Hospital her alma mater; CLIFFORD ALLAN her big brother.

The ALFRED SONS had a daughter! They're calling her MARGARET. The little Princess was born December twenty-eighth at 2:15 PM, at Saint Anthony's Hospital. She is their No. 1 kid.

The ROBERT K. BROWNS have an announcement! They celebrated 1953 on January first; JEFFREY ROBERT on January second. And 3:30 AM too. Jeff weighed 7# 7 oz according to Union Hospital. information desk.

It's a No. Four attraction at the WILLIS FISHERS. MICHAEL LYNN, weighing 7 lbs, 8 ounces, arrived three days after little New Years - and 45 minutes before lunch. He has a sister, Malinda Ellen, and two brothers, JOHN EDWARD and RUSSELL LEE.....

LEE HEPLER so proudly hailed the arrival of his firstborn - GARY ALAN,who was born at Union Hospital, January fifth. They clocked him in at 10:17 A.M. And he weighed in at 8 pounds, 5 ounces.

VISITOR FROM NORWAY

BJORGULV JAN JOHANSEN arrived in Terre Haute in early December and came to C.S.C. He is here learning what makes Solvents tick. He will return in the Spring to his Company which is known as the NORSK HYDRO-ELEKTRISK KVELSTOFAKTIESELSKAB-GLOMFJORD SALPETERFABRIKER. Now this word"KVELSTOFAKTIESELSKAB, " is not so tough if you take it easy. KVELSTOF (nitrogen) AKTIE (share) SELSKAB (Company). See how simple it is? Now you figure out the others the same way. Learn to think for yourself,Bub.

Anyway JAN - pronounced like Yahn - is sharing an apartment with bachelors,LYLE BABCOCK and JOHN LAMAR. He is fitting easily into the American way of life. We'll regret to see him go back to his Norske hemland.

NORWAY vs DELAND, ILLINOIS, SUNDAY AT THE ARMORY

At 3:00 PM Sunday, January 11th, NORWAY will meet Deland, Illinois team at the local Armory. First game we've had since the holidays.

The plant league game at two o'clock will feature YARD versus RESEARCH LAB.

The NORWAY cagers nosed out the undefeated Chesty Chips five 44 to 42 in the City League last Tuesday. Scoring was well divided with BILL BUTLAND playing one of the best games of his career...

EASTERN BOWLING FRAY

Through blood, sweat and beers, the valiant SPLITTERS, headed by "Workhorse" DAWSON, eked out a two to one victory over the ASCES, thereby winning the championship of the first half of the 1952-3 bowling season. Our congratulations to the tentative champs.

On the other side of the tracks, the STIFFS took three from the TRAILERS and showed that they are finally hitting their stride. Tuesday's bottle babies were MORELY and DAWSON.

TEAM STANDING:	SPLITTERS -	won 26,	lost 19
	ASCES	" 25,	" 20
	STIFFS	" 24,	" 21
	TRAILERS	" 16,	" 29

BOGIN INSTITUTE ALUMNS will note with pride that three of its graduates are on top where prizes are concerned. "DUDE" DOHERTY 1st high average; J.A. "PLAYING HOOKEY" CEFALO, 1st High Game; JOHN "MOST LIKELY" RATHJEN, 2nd High Game. You can see here what a little education does for a man.....

Each member of the team winning the playoff will receive an individual trophy. There will also be a team trophy, interchangeable each year, for the winning team.

WOMEN'S BOWLING LEAGUE STANDING as of 17 December

The WIVES lead the parade with 36 won, 9 lost. Second place is Penicillin with 24½-20½ record. The office boasts a 23-22 standing. Operators 20-25; South Plant 19½-25½, RESEARCH 12-33.

Pvt FORREST R. NORTHROP, US 55303812, Co. H TTG-SCRTC, CAMP GORDON, GEORGIA

"It's Christmas morning but it doesn't seem much like Christmas down here in Georgia I'm going to school to be a switchboard operator - after that probably overseas. ...I sure do enjoy the Spirit, especially the news about the south plant. Sounds like just about the same bunch of guys there and when I worked on the barrel gang. I have it pretty nice now. My wife came down a couple of weeks ago and I am living off post. Sure beats living at Camp Gordon...."

"December 7th Off the Korean Coast. Just finished reading the Spirit and was reminded that it has been quite a while since I had written.....I received a promotion to Fn (fireman) about three weeks ago and was transferred to the electrical division aboard ship. I work with the heavy power which takes care of all the cranes, anchor capstans and most 440 volt circuits. It has been very cold since we left Japan. It reminds me of my winter months in Ribo before the west wall was rebuilt. Today we replenished the ship. I am on watchhand. My job is mostly keeping the coffeepot full. That keeps one pretty busy. (All the old salts will know what I mean by that)...."

PVT. TED R. LEE, US 55268636, 704th Ord. Maint. Co. 4th Dir. APO 39, %PM NEW YORK

".....I'm stationed in Frankfort, Germany working in ordnance repairing heavy guns. I can't say whether I like the work or not because today was my first day. I may have to attend school for six weeks. Hope KONNIE PRATT is still there, going strong because I wouldn't wish this off on anybody. I sure have missed the paper so I figure I had better sit down and drop a line. I have approximately fourteen months to stay here. Believe me I'll be glad to get back and go to work....I hope each and everyone a real nice Christmas and a happy New Year. I hope to receive my paper before long so I can find out what's going on there." (Editor's note to TED: The day we received your address, we airmailed you the current copy of the Spirit plus several back numbers. Thanks for letter)

OPAL FENTON HEARS FROM HER SON WHO IS WAR PRISONER

At 6:20 one morning the phone rang and the postmaster informed the Fentons that there was "a letter from the boy." Even tho the postoffice does not open until eight, this thoughtful person saw to it that they had their letter before breakfast. Reminds us of the story of the man who went up to a postoffice window, laid down a large bill and asked that every letter received from service men on Christmas be sent Special Delivery to the parents.

OUR DEEPEST SYMPATHIES TO:

FRANK and WILLARD SMITH who lost their father....to MARY CARRICO whose father died last week...to PAUL R. SMITH who also lost his Dad,....to HAROLD FRAKES in the loss of his mother....to MARION TISLOW whose father passed away just before the holidays.. to WALLY KINSER in the death of his brother...

RESEARCH CENTER

IMANT, five year old son of FRITZ DANGA, visited Research during the holidays. This bright lad, very adept in two languages has readily annexed his third - English. He is quite fond of the American Santa (in Sweden there are Brownies) and told Researchers all that Saint Nick had brought him, in English without a trace of accent. Imant (pronounced Emont) is in Cruft Kindergarten.

GEORGE CRAIG had to hurry home to let his wife into their home. Sarah Gaye had blithely locked the door on the inside when her mother had gone outside for a moment. And it was bitter cold.....HENRY BUSH, JR., who has been assisting down in Research, left for the Navy last Monday morning. He left on his parents' 29th wedding anniversary. Nice present. Hank goes to San Diego...

The Pharmacology department had a mouth-watering menu for their Christmas Eve soiree There was fried rabbit, chicken, potato salad, coleslaw, cranberry sauce, hot rolls, coffee, pickles and olives. CARL POWER with an assist from FREDDIE CLARK did the frying. HELEN THEODORE and MARGUERITE AARON also helped with the food planning. A grab-bag highlighted the yuletide festivity.

Gift exchanges went on in Research. Bright little Christmas trees gave a sigh of relief as the many gifts were lifted from the burdened branches...Research staff received 1953 desk calendars in yellow boxes.....DICK KNOTTS said goodbye to his co-workers as he left for a new line of work in Evansville...- BETTY HUGHES reporting.

RAY OLINGER drove 400 grueling miles on ice and thru blizzards without accident. He saw a total of 18 accidentsalong the road on the trip, however..

RESEARCH NEWS BY KRUZAN

Research is losing one of its promising young actors in DR. SHIRLEY LINGO who will soon depart for the East Coast....DR. RAY DALTER is also leaving CSC. He goes to Philadelphia.....DR. WEHRMEISTER's holiday vacation took him to the Windy City.....

BILL PHILLIPS, J.T.MINOR, HAL YALOWITZ and BILL BANNISTER all took vacations during the yuletide season. They all stayed close by home because of the snow fright.... DR. AND MRS. J.K.DALE visited up around Chicago at Christmas. DR. MIESCHER went along for the ride...During the last snowfall a red Fordomatic was banged up. Do you know that the little woman driving it got all the blame? A happy and prosperous New Year to all.

NEWS FROM DEXTRAN

DEXTRAN, SHIFT NO. 2: Congratulations are in store for DAN PESTOFF who was married December 27th....SANDY HARROD arrived home from his Floriholiday in good shape..... Everyone had a nice Christmas. BOB DRUMMOND got a new Cadillac "cigar," thanks to MEL "Bucket" BOOTHE and BILL "Tightwad" BOYLE. A Happy New Year to all.

DEXTRAN, SHIFT NO. 3 JERRY ALLEN is back from a jaunt to Northern Michigan. He still has his bachelor's status. He claims he lost his sled and team of dogs.... The Institution of Matrimony has a new inmate - REX SUTTON. Admitted ChristmasEve... AL SONS has had a diversity of experiences the past week. Sunday he had a daughter born to him; Wednesday a fire took its toll on his home.....REX SUTTON'S reason for getting married to that pretty little Hymera gal, was that he had been picked up for running stop signs and decided it was cheaper to stay home.

DEXTRAN, SHIFT NO. 4 Let us close the old year of '52 and cheer for '53, with Safety First do not haste, as safety is a waste...

WHERE IS DEXTRAN SHIFT 1??????

ACCOUNTING DEPARTMENT

Members of Accounting Department welcomed KENNETH ROMBOUGH. He is a graduate of Indiana State Teachers College. His family includes his wife VERONICA and sons, JIMMY and CHARLES..The HERMAN CRUSE quartet spent the Christmas holidays with Mrs. Cruse' family south of Louisville. Hoim, the goim says he just couldn't straighten up after walking up and down them thar hills.....MRS. BETTY WHITE's husband, FRANK, who is in naval OCS training in Newport, R.I. is spending the holidays here..... MARTHA GRAY did a fittin' job of arranging the costumes on the shepherds and the Kings of the Orient at the Christmas party. Imagine telling Royalty what to wear!!!! Queen Elizabeth, pls note.....RON BURTON arrived in town Tuesday morning. Always glad to see him.

TERRE HAUTE SETS RECORD

THOUGHT FOR TODAY: If we all would decide to give a half dollar more work for the dollar we receive, we would all come pretty near getting back the half dollar we are losing because our dollars are only worth half as much. -Assistant to the President, Ex-governor Sherman Adams.

TERRE HAUTE SETS NEW ANNUAL SAFETY RECORD

Terre Haute finished the year 1952 with a frequency rate of 3.57 breaking the former record of 4.8 made in 1948. The 1951 rate was 6.95.

Compared with the frequency rates in the late thirties this means that over 70 lost-time accidents, with a total of over 1200 days lost time, were prevented last year. Such progress is a direct measure of the success and benefits of the accident prevention in the Terre Haute Plant. It is a team record - the team, of course, consisting of everyone in the organization.

Final Standings for all plants for 1952 are as follows:

	Frequency Rate
Dixie	0.00
Newark	0.00
TERRE HAUTE	3.57
Agnew	11.43
Peoria	12.98
New Orleans	17.18
Carlstadt	27.51
ALL PLANTS	5.99

As this is written, Terre Haute has a perfect record thus far in '53.

A total of 631 employees attended the group meetings last week to view the sound slide entitled "The Personal Side of Safety." A film "Farm Tractor Safety" was shown at the January 20th Safety meet.

BETTY HUGHES REPORTS RESEARCH DOINGS

WARREN PUGH began Monday as lab assistant to Dr. MIESCHER...DR. PHILLIPS complained of "rocking chair -callouses after an evening spent in rocking "TOOTIE" who was coming down with the flu. TOOTIE is his small daughter, MARY FRANCES...BARBARA LOCKE became Dr. MATTISSON'S secretary, Jan.26th...ELI ZINN said farewell to CSC. He will be with S.I.Penick Co. at Lyndhurst, N.J.....February 11th marks the birthdates of ARTHUR CLOUGH, BETTY HUGHES and DR. PHIL HIDY....Those in sick bay include DONNA FATCH, LAWNIE WAGNER, DR. MARTIN, ROGER HARNED, DR. HICKEY, MR. BACHMAN & VIRGINIA STEWART....MARGUERITE AARON (Pharmacology) is a proud grandmother. Her grandson MIKE now boasts two teeth...RAY SMITH who has been ill for a long time, came back last Monday.....WALTER GERARD brought back a miniature guillotine from Chicago and has blithely been chopping off fingers, toes. (Safety Committe please note) We're kidding, of course.....

EASTCOAST BOWLING LEAGUE LED BY THE SPLITTERS

The SPLITTERS have a 10 won-5 lost record and once more leads the league. This is by virtue of grabbing two games from the STIFFS. The ASCES took all three games from the TRAILERS and are starting to show some life - at last. And that's how it is with the New York-Carlstadt-Newark Bowling league tonight.

We might add that the STIFFS unveiled their new secret weapon last bowling night in the person of "Snakeball" MAILLEY. But despite his herculean efforts, they lost two games to the SPLITTERS. The TRAILERS just couldn't seemed to get going so they trailed....

In their January 20th game, RATHJEN bowled a weird 205 (no reflection on his skill as a bowler) that is. He didn't make a spare the whole game. It was a miss, double, miss, double, miss, triple.

STORKOGRAM! Bogin Alumni, MANGAN didn't do to well with his bowling on January 20th. Small wonder. He was about to be a father. It was a son! Next day. ...

C3C MEN'S BOWLING SOCIETY

DICK WHITLOCK had a 594 high series January 28th. The Firehouse 5 and Dextra Lab are tied for first place with a 7 won, 2 lost record. South Plant, Rascals and Nor'way share the second-place spotlight.

200 games for the night went to J.CLEMENTS 208; W. FOGEL 202; A.PETTY 269; PAUL ISENBURG 212; F. LATTA 223,200; R.E.NORRIS 204; W. ELLINGER 232; R. WHITLOCK 200-207; V.HAMELMANN 213.

On January 22nd H.WOLFE rolled only two games but totaled 454. BILL FOGEL with 590 was high series closely followed by R.R.SMITH'S 576 and BOB BYER'S 575.

The 200 Games for that night were F. LATTA 201, J. CLEMENTS 221, W. FOGEL 207,202; J. PENSACK 233; H. WOLFE 212-242; GENE KANTZ 203; M.TISLOW 200, H. SUTTLE 202 and R.R.SMITH 212.

THOUGHTS WHILE DRYING DISHES

The reason there were fewer wrecks in the horse and buggy days was because the driver didn't depend wholly on his own intelligence.....When we were young we had to wait for bread to cool. Now that we are getting along in years we have to take it out of the freezer and wait for it to thaw out.....He that lies with dogs shall rise with fleas.....

".....I'm looking forward to returning to Commercial, WHEN I get out - but I have only half my time in as of now... Thanks a lot for sending the plant paper to me. I read and enjoy every copy. Don't remember very many I used to work with over at the Feed house, but here's a 'Hello' for BOB TAYLOR if he is still around...

PVT. BILLY G. SMITH, US 5532 8782, Btry B-67th A.F.A. BN Res.Comd 3rd Armd, FORT KNOX, KENTUCKY

"Well, here I am at Fort Knox. It's for sure nothing like the place I used to work. I receive the Spirit which helps me keep up on the plant news.....I would much rather be back there putting the years in than where I am now. Tell all the fellows at the South Plant that I said 'Hello' also the rest of the fellows I worked with. There aren't any barrels to roll here but there's plenty of walking..Must close now and go to chow..."

"Just a short report from the front lines in Oshu, Territory of Hawaii. "The weather here is swell. Nearly 70 to 80 all the time but gets cool at night. The sun shines all the time and ocean swimming is wonderful. This is Monday morning the 26th day of January. I received the Spirit dated January 8th and am sitting here looking it over. Seems as if the Christmas party went over with a bang as usual. I notice that the girl situation has increased. Maybe I left too soon.

"But really, the service is a wonderful life for some. I never do much work, only fly these big airplanes to Fairfield, California, Tokyo, Japan; Midway Island, Wake Island, Johnston Island and many other small ones here in the Pacific. But one thing for sure, there is nothing like home - especially if it is Terre Haute, Indiana. I have met many people here from around home like Clinton, Columbus and other nearby towns...Maybe I'll get homethis summer. See you then...."

PVT JOSEPH D. WINTER, US 55304769, Co. I 2nd Flt 188 AIR, Ft.Campbell,Ky

"Just a line to thank you for sending me the Spirit regularly. Besides reading about my friends I can get a picture of events around town too. I like this because it is my only connection with Terre Haute. Sorry to hear about GENE SWALLS being reported missing. I didn't know him, but I'm sure he's a good guy after working at Solvents. After being hospitalized for two weeks, I want to send you my new address. Keep sending the news and tell everyone Hello."

PVT. HAROLD R. FURRER, US 55340113, "C" Co. 200th Inf., 31st Divn.,CAMP ATTERBURY,Ind.

"Well, we finally got stationed at Camp Atterbury for our basic training. I saw SHANNON WHITE at Fort Custer and got to talk with him for a while. BOB EVANS and I are in the same barracks here at Camp Atterbury . We start training Monday morning and it will last for sixteen weeks.....Would like to have the plant paper sent to me...."

PVT GLEN R. BARRETT, US 55304775, US ARMY HOSPITAL WARD A-12, FORT LEONARD WOOD, MO.

"....I received the Spirit today and ....was sorry to hear about GENE SWALLS. I hope they hear from him right away. I am still in the Hospital and am having a lot of trouble with my leg... I think they are going to operate on it again because it locks on me and goes out underneath me when I'm walking....I hope they make up their mind what they're going to do before long. From reports you must have had a nice time at the Christmas party.....I would like to have JOHN STEWART'S address. (Editor's note: Here tis: PVT. JOHN R.STEWARD US 55275820,Co.A,2nd Bn.,MFSS BAMC.,Ft. SAM HOUSTON, TEXAS.) I'll be glad when I can be with my CSC pals. Boy, the time sure goes slow here. I'll be glad when it's up but that's a long time yet. I will shut the water off now. Please greet all the guys at the East Plant....."

PVT JOHN R. STEWARD, US 55275820, CO. A 2nd Bn MFSS BMAC, FT. SAM HOUSTON, TEXAS

"Thought I had better write you a few lines to let you know my new address. I am down here enjoying this nice Texas weather. The weather is about all I like about the place. I live in a building that looks like a hotel. We have to take off our shoes to come inside so we won't get the floor scarred. We have three inspections a week, which I don't like because I think one a week is plenty. I am going to learn to be a dental technician. That is a long way from loading antifreeze. I would much rather load antifreeze. I'll be looking forward to getting the Spirit....."

PENICILLIN PACKAGING, SOUTH PLANT

Wedding bells are ringing three times as loud down south plant way what with JOYBELLE MEYER becoming a bride, February 15th, and MINNIE JOHNSON and ESTELLE STEWART both saying "I Do" at later dates.....With so many of the gals losing teeth down here, we can't resent being called "Grandmas"....

The shining rays of diamond rings brighten up penicillin packaging. They are worn by VIRGINIA BOYLE and JANICE OWEN.

The flu bug is active. The red noses reminds one of Rudolph....

MAIN OFFICE SNIFFLES by MARTHA GRAY

ADRIAN RAY gave up to Demon flu on Monday, January 26th and went home at noon..DICK RAPSON had to take some time off trying to recuperate from a cold....BETTY BRAND bowing to the same bug is now back with full steam ahead....

Members of the Women's Office Bowling Team enjoyed a delicious veal and spaghetti dinner at Binoli's restaurant at Blanford Tuesday evening, January 27th. Members of the team include CHARLOTTE RINGHAM, FRANCES ZIMMERMAN, MARTHA GRAY, SHIRLEY HAMELMANN, CAROLYN MEADOWS and EUNICE SCHWARTZ-BURKE. A social evening was later enjoyed at the home of MARTHA GRAY in Clinton.....

PENICILLIN FINISHING

WILMA KELLER is featuring a bright sparkler. The gentleman in question is GEORGE HEDGES of Pimento.....Everyone is rooting for their favorite basketball team. Gerstmeyer Tech is the favorite of most of the gals and guys. And Gerstmeyer didn't let their rooters down. Last Saturday they won the Wabash Valley Championship.....

NORMA WALTZER is the New Face in the office. BOB MILLER is being welcomed to the grinder room....We are sorry to hear of the critical illness of BETTY DUSENBERRY'S grandmother. Also sorry to report the death of ELMER HUPPERT'S sister.

WILMA MCDANIELS is counting off the days until a guy named WAYNE will be home.....

CARLSTADT, NEW JERSEY REPORTS - by J.T.MORRIS

"No doubt many of your readers will be surprised to learn that a recent survey indicates New Jersey is the leading producer of chemicals and has the greatest concentration in the chemical industry. With only one quarter of 1% of the nation's land and 3.2% of its entire population, this little State accounts for 13% of the total chemical production of the country.

"The Commercial Solvents Corporation as a whole was substantially represented in this performance, considering that over 65 million pounds of various CSC products handled at Carteret Terminal and Carlstadt were billed here during 1952. The above figure does not include shipments from the Newark plant."

L. KISNER RATED PRIZE PATIENT AT ROCKVILLE SANITORIUM

LAWRENCE KISNER, , who has been putting up a good fight against tuberculosis at the Rockville Sanatorium, sees victory in sight. We have it on good authority that our COCER is a prize patient and is liked by Doctors and nurses. Going into the hospital as an advanced case, our informant commented "It is just a joy to see what can be accomplished." LAWRENCE has had several "furloughs" home. We hope that very soon he'll receive his honorable discharge.

"I have just completed eight weeks basic training with the 3rd Armoured Division ... I now am entering clerk typist school for another eight weeks....It was sure good to get rid of all the equipment we had to keep and clean daily in basic. Basic wasn't really bad though. The time has gone fast.....I have my first medal! - Qualification with the M1 rifle. How are the fellows around Microbi? Still turning out those little pen bugs? I enjoy reading the Spirit but I never see any news from Microbi. Doesn't anything ever happen down there or is everyone too busy to write news? If everything comes out as planned, I should get a leave in about 8-1/2 weeks.....Keep the old plant rolling.."

PFC MARION LESLIE, US 55178977, Hq Co. 180 INF. REGT APO 86, %PM SANFRANCISCO, CALIF

"Hi: I am feeling just fine and hope everyone at the plant is feeling the same. I thought I should let y ou know that I am still receiving the Spirit. I am always glad to get it. The weather hasn't been too bad so far. It has been pretty cold for the last week or so. It hasn't been as bad as most winters at home. My division is back up front again after two months in reserve. We have only been here about one week. We will probably be here for about three months. We are in the Punch Bowl and Heartbreak Ridge area...Glad to hear you did so well on the Safety record. We are about 12 miles back and live in bunkers. They are a lot better than a tent....."

CPL. W.C.BULGER 1277409 (TRAEX III) A.Co. 1st Bn 6th Marines, 2nd Mar.Divn FMF, Camp Lejeune, N.C.

".....I am now in the procedure of winter training, on the island of Viques. Viques is very near Puerto Rico. Is it ever hot down here! It is nice but I would still like to be back at CSC. Recently I was promoted to Corporal and I am doing very well. Hope to be back at the plant very soon. Keep the Spirit coming.."

(Editor's note: Have you met CSCER, FLOYD DUNNIGAN? He is down your way on maneuvers too. His address is VMF 314 MAG 31, 3rd MIAW, TRAEX III.)

"Well I've finally got all settled down now so you can start the Spirit on its way again. After seventeen days of sailing to Japan and three to here, I've finally ended up in Korea. I'm in a line company. The nearest town close here is Yonchon. I went through Yong Dong Po where I heard the Leslie Boys were...BILL BAUER and I came all the way over here together but the night we unloaded at Inchon, we were separated. He went to the 3rd Infantry Division and I came here to the 2nd. I sure wish we could have stayed together, but that's the way the army is. I'm in a tank battalion working as a mechanic and so far it is a pretty good deal. Living in these bunkers isn't as nice as home but they sure serve their purpose....I guess you don't realize how lucky you were in civilian life until you get a dose of army, but it will do me some good. I have no room to complain. I'd like to get all the guys' addresses who are over here if I can. Maybe we can get together sometime and talk over old times. I sure have missed the Spirit, so you can send it as soon as you can. .....I'll try to write more later but the candles don't last too long....."
(Editor's note: CARL LESLIE is now a civilian and back working at the East Plant. MARION LESLIE'S address is shown above.)

"Since my departure from the States and subsequent arrival in Korea, I no longer receive the Spirit. During my stay in the States I received the newsletter regularly. and enjoyed reading it from the title to the last word.... Since news from home arrives less frequently here, I hope it will be possible to change my address and send the Spirit here to Korea. I had a short stay in Japan with a few hours off for a visit to Tokyo. In one of the issues of the Spirit I read about some of our employees from the fermentation plant in Tokyo visiting CSC. I hope to obtain the complete name of the firm so that on my next trip to Japan I might be able to see the plant .

Note to Paul - this plant is the Kywa Fermentation Plant whose main offices are in the former General Headquarters Building in Tokyo. The plant is at Bofu or Hofu (either spelling), the railroad station is Mitagari. The plant is 600 miles south of Tokyo. FRED ARZBERGER who gave me this information suggests that you call at the office in Tokyo. They will be very happy to see anyone from CSC. Editor.

THAT'S THE STORY

HOT SCOOPS BY PENICILLIN, SOUTH PLANT

GENE "HOTFOOT BARNEY" HARTLEY has proved that a Pontiac will outrun a Ford. Ask the city patrolmen who caught up with him at "Barney's home.....LOIS RILEY EAGLIN has left the order department to join her husband who is stationed in Virginia....MARY ELLEN SHEPPARD, who hails from Pen plant is the newcomer to order department..... Wonder why HARRY ROTH always has a refund coming on his Federal tax.. Someday we'll know.....DEWEY "TARZAN" WESTFALL has proved to the south plant gang that he is all muscles. For confirmation on this ask DENGES....

MAIN OFFICE - MARTHA GRAY

MISS LYDA GRABBE, formerly of the penicillin department, is now part of the accounting force. The southwest office force gave her a hearty welcome.....
.....BETTY WHITE is a lucky gal. She will soon be absorbing Florida sunshine She will join her husband who is in officer's training school at Jacksonville, Florida.

GENE SHOOK has a wonderful idea for celebrating his birthday. He brought eight pints of frozen strawberries to the office, BETTY BRAND baked a cake. Good eating!!
.....DEWEY WHITE was generous with the beautifully decorated birthday cake which BETTY WHITE brought him last week. These fellows will miss her homemade cakes when she goes to Florida.

PENICILLIN FINISHING DIVISION

JESSIE STRINGER is wearing a sparkler with "K" COLLINS attached.....ROSIE WEBSTER and NETTIE DONHAM are back after a short visit to south plant.....JO ANNE COX is going back to the country....REGINA ROYER was very much delighted to have her marine husband home last weekend....

PAUL WEST was very happy to receive a telephone call from his son, BILLY, who is in the air force. NELLIE HARDING celebrated her birthday last Friday. MARCELLA HERRINGTON baked a delicious chocolate cake for the occasion and NELLIE furnished the ice cream.....NELLIE HARDING will never hire WILMA ROONEY and MARTHA PRICE to assist her in backing her car. They got her in the ditch, no less. To get her out it took not one, but TWO cars!.....WHERE did GEORGE HART get that hat???? Everyone is interested to know how THELMA HYATT got that class ring on her finger.....MABLE RODGERS spent the weekend in Southern Illinois.....

DERIVATIVE

SHIFT NO. 1 - JIM ROMAN ordered a Jimmie B boat from a factory at Little Rock, Arkansas and intends to go down and get it the week of March sixteenth....WILLIAM MARTIN was kicked by a flu bug and missed four 11-7 shifts last week. He's OK now.....EARL PEARSON must be contemplating housebuilding from the looks of the literature he has been receiving recently.....HUGH POWER tried to play Samson and upend a log while burning up brush on his farm. The log won. HUGH got a kink in his back....FRED SCARBROUGH and HERSH WEBB say they are always getting gyped by being on the 3 to 11 when there's a good fight on television....

LUTHER TODD has a wonderful selection of spectacles. He has a near-sighted pair, a far-sighted outfit, a pair of bifocals, and recently he added safety glasses. A mighty smart addition.....South Still tower's gain was our loss when BUCK GRAHAM transferred his seat of operations.... We extend a belated welcome to newcomers HUGH POWER, ROBERT BLAKE, RAY HERRINGTON, MAX BAILEY, ERNIE LAUFMAN and HERSHEL WEBB....BILLY, son the BILL MCDANIEL, has recently retired from the U.S. Navy and entered old Purdue.....

DERIVATIVE MEN HAVE WORKED 196 DAYS WITHOUT A LOST-TIME ACCIDENT...

A SCHOOLGIRL'S IDEA OF AN ELEPHANT - (this classic submitted by Dr. KLUSSENDORF)

The elephant is a great big elephant. He is a elephant because he looks like one. He has a great big hose called a trunk. This is a big mistake because you can't squirt water out of a trunk. If it is a trunk he must keep it packed all the time cause he travels a lot with the circus. He has great big ears and smells. His legs are just like the bark on a tree and the dogs bark at the bark on his legs. He has eyes like an elephant and sees like one. He can see peanuts a mile away and when he sees a sack of peanuts he seizes them with his peanut seizer and gulps them down sack and all. Yes sir, a elephant is a very funny animal but he don't think so cause he never did laugh cause I guess he just can't see anything funny about being just an elephant.

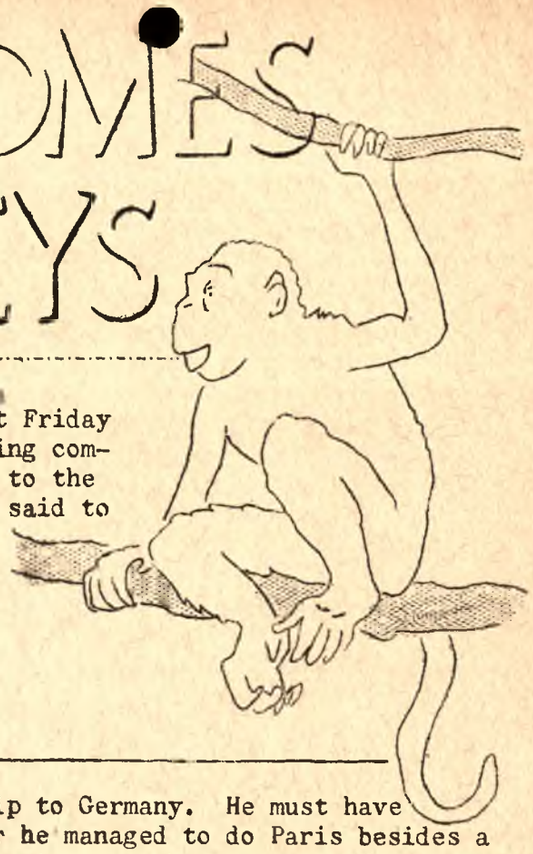
NOR'WAY IN ACTION

C.S.C. WELCOMES 20 MONKEYS



Twenty frightened, shivering monkeys arrived last Friday from the jungles of India. An impromptu welcoming committee composed of an assortment of CSCERS added to the discomfort of the newcomers. One little monkey said to his mates "If we act like these people, take me back to the jungles." But, of course, we meant well.

The monkeys are now At Home in their individual cages in the pharmacology building.

FRED DUDLEY HOME FROM EUROPE

FRED DUDLEY returned last week from a quickie trip to Germany. He must have budgeted his time well and slept very little, for he managed to do Paris besides a yump up to Nor'way . He brought back some interesting snapshots of the trip. FRED flew over, but Queen-Maryed back. On the ship was our friend Vishinsky who was quite affable. He even posed for DUDLEY'S camera.

DEATH TAKES TWO CSCERS WHO WERE TO HAVE RECEIVED WATCHES IN MAY

HARRY SKITT died at Union Hospital at 9:30 Monday morning, March second, following an illness of several months. He was to have been one of the candidates to receive his watch for twenty years of service.

Harry's starting date with Solvents was October 3rd, 1933. He was born in Wrexham, Wales, March 19, 1900. Services for him were held at the Cross Funeral Home, yesterday morning with Rev. Ralph Carter and Rev. Clyde Montgomery officiating. Burial was at Roselawn Memorial Park. Pallbearers from CSC included JAKE DAVERN, CHARLES ALBRIGHT, ART CLEMENTS, HAROLD BURROWS, BOB LEUSING and PERCY MILLER.

Harry Skitt is survived by a son, Robert, and two daughters. Deepest sympathies.

GEORGE HUTCHENS, MARCH 2, 1953

GEORGE HUTCHENS (Pipe Gang) was to have celebrated his twenty years of service with Solvents this year. He died at Saint Anthony's Hospital at eleven o'clock, Monday morning, following an extended illness.

He joined Solvents on September 19th, 1933 and spent his entire time with the pipe gang. George would have been 53 years old today.

Funeral services for him will be held today at one, from Gillis Memorial Chapel. Reverend George Shaffer will officiate. Burial will be at Dunlap Cemetery. Pallbearers include some of his many friends here at the plant. They are REX WALLS, CECIL CATON, CLAUDE THOMPSON, FINLEY KUHN, HAYDEN PORTER and TY CHESHER.

Our sincerest sympathies to Mrs. HUTCHENS.

MACHINE SHOP HAS NEWCOMER

A car of drums came in from Chicago. In the car was a grey and white kitten which had been imprisoned in the car for eight days. The fellows at the plant have since made up for his week's fast by keeping his saucer ever full of milk and by sharing morsels from many lunchbuckets. The boys of the unloading gang found the cat. DEAN NEWLIN , thinking the stowaway might be frightened, put him upstairs for a while. When Dean walked by the cat jumped square on his shoulders with a sort of "Let's get acquainted" gesture." The grey and white newcomer is now the mascot of the machine shop. He is always eager to receive an edible contribution.

AROUND THE PLANT - Of all the CSCERS who have gone to Florida, BUCK RICH was the only person who sent back souveniers. A box of delicious tangelos (oranges to you) were very much enjoyed...A quartet of nice guys left the local plant for Dixie last Monday. They were DON BELCHER, BOB RIDDLE, JOHN BANNISTER and GENE SCHACHT...The BOB ROBSON'S and their 16 month's old son have moved to New York (23 Glade Lane, Levitttown, N.Y.) BOB is stationed at Mitchell Air Force Base. He recently returned from a yr. in Japan.

NOR'WAY TEAM IS CITY CAGE CHAMPS

NOR'WAY defeated a fast Visking quintet 58 to 53 to annex the city basketball title. The game was well played and hard-fought from start to finish.

The NOR'WAY boys presented one of their best balanced scoring games of the year with every member of the team hitting the scoring column.

NOR'WAY ENTERS SECOND ROUND OF VALLEY TOURNEY

CSC downed Fairbanks by a 77-29 score. Holding only a 29 to 15 advantage at half time, NOR'WAY caught fire in the last half. BILL SMITH blasted the nets for nineteen points to lead NOR'WAY.

Providing NOR'WAY is victorious Wednesday night, they will play Thursday, March 5th at 8:30 PM. Then if they win again they will play the finals at 8:30 Friday, March 6th, if not they will play in the consolation game at 7:30 PM.

"Greetings from California! ...The nicest things always happens to me. The Medical Board at Walter Reed met and decided I might return to limited duty to see how I got along. After 6 months I am to be re-evaluated for full duty or ----- depending. They said I had been more ill than I realized. Arrived here 20 Jan.,in a pouring rain. (California Chamber of Commerce please note). The natives said the rain had been falling for weeks. At noon the sun came out and other than an occasional fog, the weather has been wonderful....On limited duty I may come home to bed when I think it necessary. So far I have missed only one day of work....I am as happy as a moth in a new blanket. This city fascinates me. Our hospital is in the city and on the bay by the Golden Gate Bridge. Many trees and flowers are in bloom. On the street corners flower venders have "stacks" of jonquils at 2 doz. for 50¢ and roses 50 cents per doz.

Spent yesterday in Chinatown. It was the Chinese New Years. Saw an elaborate parade with dragons, etc. Had a lovely meal which began with seaweed soup. Walked in and out of shops eating candied kumquats and candied ginger. Saw fruits & vegetables unknown to me and dried species of fish and other "meats" which were far from attractive. One Sunday I had cookies with tea which had jasamin flowers in it...Can't help but get well.."

"I am getting the Spirit regularly and it is good to read about all the happenings back home and around the plant. As far as news goes over here, there just isn't any. We have plenty of snow and lots of mud.....It snows all one day, next day it warms up and melts all of it and we wade in slush.....I am due to rotate in October, in fact the first list in October. That may sound like a long time to you but not to me. I had 15 months to go when I got here so 7 months seems like a short time..I was reading the Spirit today and in it was a letter from JAMES WHITE. Is that the same JIM WHITE that drives the race car? (Editor's note: That's the one). I saw his address but I thought maybe it wasn't the same one so I haven't written to him.....In his letter he was telling how he and BILL BAUER were split up at Inchon. That's the same place where we left Korea in October '52. I didn't think much of it myself. I would rather be leaving it than coming into it. I see CARL LESLIE is back and playing ball for you again. That's good news...We have had almost 300 replacements in here in the last two months but none from around home. I look at all the orders hoping someone from home will come over.....There isn't more than 5 guys from Indiana in our Battalion. Will see all of you in 7 more months if Ike doesn't change my mind....."

"Hello Everybody at Commercial: ....I received a Spirit yesterday....I'm awful sorry to hear that GENE SWALLS is missing in action. I hope that he turns up and is all right. My wife told me that HARVEY MILNER is back in the States now. I imagine he'll be back at Commercial before long. I sure wish I was back there working. As for Korea, I don't care much for it. All there is here is one big mess of hills, mountain and dirt. I am in an ordnance outfit working on all sorts of vehicles inc. tanks. This place wouldn't be so bad but they sure lack the facilities to clean up and have clean clothes. Tell BILL FOGEL and BUD DISHON hello for me, also ask them to write Maybe I can answer their letters pretty soon. We work 7 days a week. Half the time we work nights until 9:30, so when we do get an evening off, it seems like a day. The chow here is a lot better than any that I ever had in the army in the States....Tell the yard gang "Hello" and tell them I hope to be back in another year or so."

He will be with former CSCER, CHET ROWLEY. Best of luck....

Several visiting school groups have been shown the operations of our department..... During the visit of a group of small boys, one of the CSC femmes became so excited she dropped a box of vials. The girls wonder what she'd do if the boys had been older...MRS. DEETERS was happily surprised on her birthday last Monday when her small grandson called her long distance.....

PERSISTENCE & DETERMINATION

It seems likely in the final analysis that leadership comes as much from persistence and interest in the job as from any other quality. Calvin Coolidge aptly said "Nothing in the world can take the place of persistence. Talent will not; nothing is more common than unsuccessful men with talent. Genius will not; unrewarded genius is almost proverbial. Education will not; the world is full of educated derelicts. Persistence and determination seem omnipotent." (Life Office Management Assn)

PVT JOSEPH D. WINTER DIED IN TRUCK WRECK

The Terre Haute Star carried the tragic story of six soldiers losing their lives, and 38 more injured at Camp Campbell, Kentucky, when a large Army truck went off a curve and plunged to a creek bed below.

One of the six dead was CSCER, JOSEPH D. WINTER who left the plant for military service last September. He had been with Solvents for over two years, working first in Process, then ribo and more recently at South Plant penicillin.

The Spirit office talked with Joe's parents at Bloomington, Indiana this morning and were informed that the body had not yet been brought to Bloomington but assumed that the funeral would be held either Thursday or Friday. The body will be taken to the Day Funeral Home at Bloomington.

In a letter to the plant in January, JOE said this of a fellow CSCER who was reported missing in action. He wrote:

"Sorry to hear about GENE SWALLS being reported missing. I didn't know him but I'm sure he's a good guy after working at Solvents."

Our hearts are bowed with sorrow at the news of the passing of another "good guy" JOE WINTER. Our sincerest sympathies to his parents and the sister and brother.

WEDNESDAY AFTERNOON: A letter has just been received from the brother of JOE WINTER, postmarked 5AM, Henderson, Ky, Mar. 18:

"Am writing this note while enroute to Fort Campbell, Kentucky (Waiting for a bus). This is to inform you and all the dear friends of JOSEPH D. WINTER at CSC of his death this morning while in training.

"As your record will show, he was employed by you at the time of his induction into the 11th Airborne Inf. Divn. We, the family, are not aware of particulars at this time and no arrangements are final. He will be taken to Bloomington and the funeral will probably be on this Friday.

"This is his brother Bill writing. Please let his friends hear of this tragedy."

"I am now a soldier in the United States Army and would like to have the Commercial paper sent to me...The army is not quite as nice a plce to work as it is down there I am in the Dixie Division, 31st that is. I will receive sixteen weeks of basic training and then go overseas. Not a very pleasant thought....

"YOKOSUKA, JAPAN.....I have been doing a little sightseeing ...I went to Tokyo and Yokohama. I also visited some shrines in Kamakuri. In Yokohama I had a surprise. I ran into a fellow plantman. I saw BOB WICKARD and we talked an hour or so. We both express how much we liked to receive the Spirit and read about everyone in and out of the service.

"I want to say I am very sorry to hear about GENE SWALLS missing. I hope some word may be heard from him very soon. I played basketball with him at Glenn and I know he is a swell guy and everyone must wish the best for him. .....The weather is pretty nice right now although we had ten inches of snow the first of the week.. Wishing everyone the best....." (BOB, we had a report of a bomb exploding on the USS ORISKANY. We hope you came thru the thing unscathed. Let us know. editor)

PFC BEN KIBURIS US 5524 8732, MP CO. 8458 AAU. Postoffice box 5500 ALBUQUERQUE,N.M.

"Received the Spirit the other day and thought it was about time to write a few lines. There isn't much doing down here. Same old routine over and over.. I see where CARL LESLIE is back and doing a good job on the basketball floor as always. Sure wish I could get home to see some of the games.....It won't be long until baseball season will be here, but don't think I'll play this year. I think I'll give up the game for good. I am hoping to see everyone in May if I can get a leave but we're awfully short of men.....Tell everyone I said Hello."

"...Since I wrote last I've been home for eight days and then spent thirteen days on the Atlantic going to Germany. We landed at Bremerhaven and I am now stationed at Pirmasens in the French zone of Germany. I think they are going to try to make a mechanic out of me.....I read where JIMMY JEAN and REX SUTTON got married lately. Lots of luck to you and I sure hope the army doesn't get you..."

A/B DONALD W. STEWART, AF 16437062, 3702 B.M.T.S. FLT 165, LAFB. SANANTONIO, TEXAS

"I am having a nice time and good meals. Learning to march. Having a time at it, but would like a little bit of work at the plant right now. Plenty busy...."

H.F. BOATMAN S.K.G.S.N. USN SUPPLY, NAVY 103 FPO, NEW YORK, N.Y. (NEWFOUNDLAND)

"....By the time you get this letter, I'll probably be ready to leave this rock and head for Brooklyn and then home. Thanks for sending me the Spirit. I've enjoyed reading it and keeping up with what is going on around the plant. So have a lot of other guys here...We have been getting our share of wind and snow storms here since I have been back off this last leave. This base is getting another new Skipper the 27th. As usual a new skipper means more regulations. We have to have passes on us at all times now that shows we are authorized to wear dungarees to work in. They cornered me the other day giving me some shipping-over speeches but it didn't do any good. I like my civilian life too well....Be seeing you before long."

G.I. NOTES

Lt and Mrs. ROBERT J. ROBSON, JR., and their 16-months old son, BOBBY JOE, have gone to New York where BOB will be stationed at Mitchell Air Force Base. They will make their home at 23 Glade Lane, Levittown, N.Y. Bob recently returned from overseas duty with the air force in Japan and Korea.....

JOHN LAMAR left last Friday for military service.....Was glad to run into JOHN LEMP one Saturday noon at the Goody Shop. John, who is stationed at Frederick, Maryland, was passing thru Terre Haute enroute home. He also visited with CSCERS, JOHN LAMAR and LYLE BABCOCK....RICHARD COX is back punching CSC timeclocks now, fellows, which proves that you might eventually get out of the Army if you're patient. (This also applies to Navy, Marines, Coast guard and the WACs)

WEDDING NOTES

The LOUIS GODSCHALKS announce the approaching marriage of their only daughter, WANDA LOU to Chester Ray Richardson.

The wedding will take place March 21st at seven-thirty at the Mount Pleasant Methodist Church.

DEXTRAN, SHIFT NO. L

Shift No. 1 welcomes DAN BUDD, Jr., to this shift. He replaces JOHN DUBBS who goes on No. 3 shift -(the hoot owl, that is.) JOHN HOWKER shaved off his cookie duster.... LEO WHEATLEY tells us that Terre Haute's Gerstmeyer Basketball team is getting publicity down Bloomington way. There is a new sign reading "THE BLACK CATS ARE COMING!" They not only came, they conquered! "BUCKET" BOOTH still says the ATTUCKS (Indianapolis team) are going to be State Champs. (Note: The Attucks were defeated last Saturday

MAILBAG - CIVILIAN

ARNOLD N.JOHNSON writes from General Laboratories, U.S.Rubber Company, Passaic, N.J. that he is getting settled. He has found a nice rental for his family. They will move there sometime in April. Dr. JOHNSON also had a pleasant weekend visit with RAY DALTER in Philadelphia...

MILTON STOUT writes from his new home in PEORIA, ILLINOIS where he is enrolled in the watchmaking classes at Bradley University. He and his family are comfortably settled in a new apartment house. Milton writes "If you know anyone who is coming over to Peoria plant and have any time to spare, would love to have them stop in and say hello. Seems funny to live in a strange town and not know anybody. Have always lived among friends before. (The address is 1110 Grinnell Street, Apartment 856, Peoria, Illinois)

The CHESTER ROWLEYS are now settled on the banks of the Kankakee (at 1076 East Maple Street, Kankakee, Illinois). A new Armour plant is being completed there. Currently CHET is commuting to Chicago.

DR. G.M.C.HARRIS and his bride will be honeymooning in England....DR. HOMER E. STAVELY will attend a medical meeting in Chicago....DR. JOS.N.SPENCER was in Washington, D.C. at the Food & Drugs administration....

RAY SMITH has the tough luck. After a lengthy sick spell, he was recently in an automobile accident wherein he was thrown from the car. It is a bruised RAY who is with us now...After spending four or five days up in Michigan learning all about monkeys & their training, we believe FREDDIE CLARK misunderstood. He was to TRAIN the monkeys.

There's no telling what happens to perfectly good country eggs that MARGUERITE AARON brings in from the farm for SALLY KIRTS. SALLY tried to break an egg into the frying pan one morning only to find it was already softed boiled - not by the hen, understand, but by FRED CLARK. Later Sally asked Fred to loan her a nickel for a coke, which he did gladly.(He found later that the nickel was to pay for the soft-boiled egg.)

RESEARCH AWARDS

JACK DORSEY (Research's representative in Dixie) has completed five years of service with CSC and now proudly wears the one-star decoration.

A quartet of Terre Hauteans collected two-star buttons for the completion of their ten-year service with our favorite cooking school. They included MRS. BARBARA SCHAFF, LARRY JONES, OLIVER HAYS and CLARENCE KENNEDY.

A THANK-YOU NOTE

Mrs. GEORGE HUTCHENS sends her grateful thanks to all CSCERS who helped so much during the extended illness and death of her husband. She is also most appreciative to the pallbearers, and to all who sent flowers.

SPECIAL HOOSIER BASKETBALL ROTO FOR C. S. C. MILITARY. . . . .

TECH BLACK CATS ARE RUNNERS-UP IN INDIANA STATE BASKETBALL TOURNAMENT . . . . .

Front Row (L to R) - Bill Bolk, Harley Andrews, Arley Andrews, "Uncle Harold" Andrews, Jack Smith (son of Bob (Pipefitter) Smith.

Second Row: Howell Carter, Jerry Strum, Frank Kelley, John Brewer, Ed Beasley, Bob Rowley, Jon Rhodenbaugh.

INDIANA UNIVERSITY BASKETBALL CHAMPS CAPTURED THE BIG TEN CHAMPIONSHIP THEN WENT ON TO NAIL THE N.C.A.A. CROWN OUT IN KANSAS CITY. . . . .

Front Row, l to r: 14. Phil Byers, 25. Burke Scott, 21. Bob Leonard (Gerstmeyer), 30. Paul Poff.
Second Row: 34. Don Schlundt, 13. Charles Kraak, Coach McCracken, 31. Richard Farley, 35. Lou Scott.
Third Row: James Dea Kyne, Dick White (CSCER, and son of Shannon White), Jack Wright, James Schooley.
Fourth Row: "Money Bags" Fifer, Goethe Chambers, 23. Ronald Taylor, Ernie Andres - Assistant Coach.

DICK WHITE

The ability of a substitute to come off the bench and accomplish a job marks much of the difference between a losing and a winning basketball team. Sophomore Dick White's pinch-hitting capacity, by that yardstick, has had much to do with Hoosier successes to date.

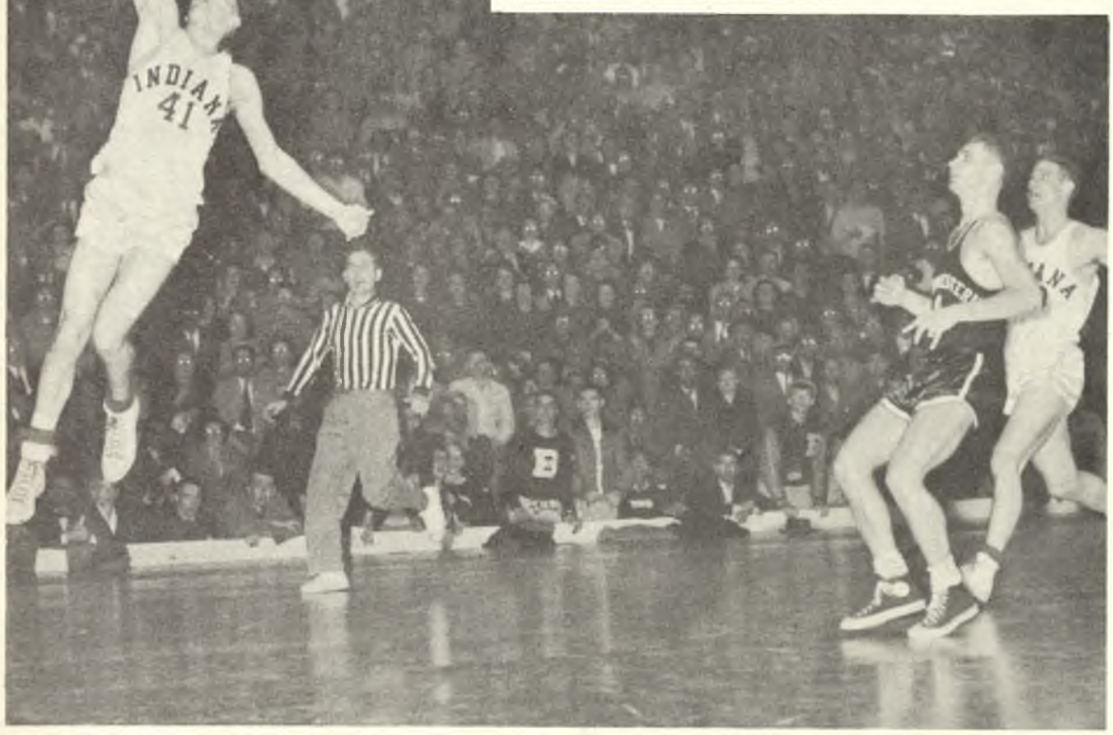
In three crucial games this little heralded newcomer has, as much as any one player in a well-integrated team effort can be credited for, provided the difference.

In the last 18-seconds victory over Minnesota, White came off the bench and with Charley Kraak sidelined by fouls tossed in three baskets in six shots and canned three of four free throw attempts. Without those nine points the Hoosiers' 66-63 victory could have been in the other column.

In Indiana's 74-70 double-overtime victory over Illinois, White contributed ten big points as Kraak sat out the second half with a knee injury. A field goal in the fourth period helped overcome the Illini lead, but his nerveless free throw shooting in the two overtimes was the payoff. In the first overtime he hit two of two to aid in keeping Indiana in the 68-all tie. Three out of four in the second overtime helped nail it down. In Indiana's 88-84 squeeze over Northwestern it was White having his biggest night of the year with 13 important points.

The 6-1 product of Terre Haute Wiley appeared in all but three of the first 18 games, placing sixth in Hoosier scoring with 83 points, a highly creditable 5.5-point game average. A sharp-eyed shooter, Dick hit .337 from the field and .692 from the free throw line.

Dick's a cool performer on the links also, lettering as a freshman on Indiana's golf team last Spring.



INDIANA IN ACTION

JACK, son of pipefitter foreman, Bob Smith was named one of the first five in the annual All-Western Indiana Conference. The vote taken among varsity coaches in the conference.

THE FIRST TEAM INCLUDED

Forward,	Arley Andrews,	Gerstmeyer
Forward,	Dick Kirkpatrick,	Wiley
Center,	Jim Harkness,	State Lab
Guard,	Mark Watson,	Wiley
Guard,	Jack Smith,	Gerstmeyer

Another article about the Black Cats team carried this paragraph -

"Any team that has read too much publicity about the Andrews boys will be making a major mistake if it lets Bolk and Smith shoot at will. Bolk hit five of 10 against Evansville Central and Smith made four of eight. . . ."

CSC'S NEWEST PRODUCT IS WRITTEN UP IN APRIL'S FARM JOURNAL

Under the heading "A NEW FAMILY OF CHEAPER FEEDS" by RAY DANKENBRING, we read -

"A whole new family of "ammoniated" feeds made from corn cobs, molasses and other farm wastes may soon be cutting your protein feed bill.
"First of the new products - an ammoniated molasses called "MOLATEIN" (That's CSC) has hit the market. Others are due to follow as soon as the manufacturers can shift from pilot-plant to full-scale production.

"Ammoniated feeds work about the same as the urea which cattlemen have been feeding for some time. Both ammonia and urea are supplied mainly by the manufacturers of nitrogen fertilizers.

Like urea, the new feeds can be used only for animals that have rumens - meaning cattle, sheep and goats. They do nothing for hogs and poultry. Reason for this is that ammonia is not protein itself, but nitrogen. And only the ruminants are able to change nitrogen into usable protein.

(We shall skip the paragraphs on "WILL AMMONIATED FEEDS BE CHEAPER THAN UREA" and "CAN YOU AMMONIATE YOUR OWN FEEDS?" and quote what the author says about us -

"Here's a run-down on ammoniated feeds that have already proved out in feeding trials:

"MOLATEIN, the new ammoniated molasses product made by Commercial Solvents Corporation contains nitrogen equivalent to 15% protein. In tests so far, it has been used to replace from 10% to 20% of the concentrate feed Tests are under way now to see if it can replace more than that amount.

"At Pennsylvania State College, Dr. C.B. KNODT found that the nitrogen in MOLATEIN was fully as digestible for dairy cows as the nitrogen of soybean oil meal.....".

(MOLATEIN is an ammoniated molasses products produced by a patented process developed by the Animal Nutrition Department of Commercial Solvents Corporation.)

(Thanks to Dr. Riddick who sent us the FARM JOURNAL)

SOLVENTEERS WERE BIG GUNS IN BOY SCOUT CIRCUS

The Boy Scout Circus - a colossal success - is now history. HOMER KIEWEG was in charge of the program committee; LEWIS PELKY acted ably as back stage director; HENRY FICK was one of the Events Directors.

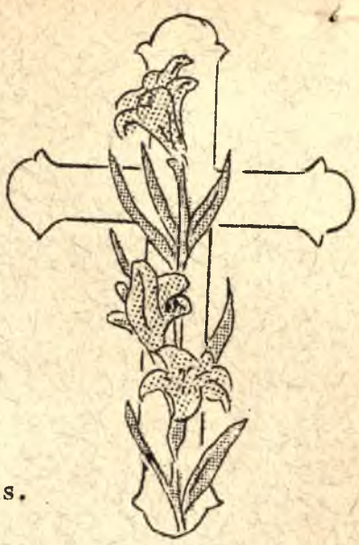
HENRY FICK,with another director,led the Cub Scout Parade of 500 strong. These youngsters showed their handiwork in "The Land of Make Believe", "Indians", "Clowns" and "Everyday Life Around Home." Hats off also to FRED DUDLEY, WILFRED SPRING, WILBUR KEKO, BILL JOHNSON, FRED CHAPMAN, HOWARD RUBE, HERB HYLTON...
ROGER HARNED was Cubmaster of Pack 27 of Breden Memorial Church....HOMER STAVELY of Pack 30 of the Thorton School P.T.A.

The First Aid section of the Scout Circus included Troop 8 under the direction of JOHN EVANS; Troop 27 with DAN JOHNSON.

Act X was entitled "FLINT AND STEEL" in which the scouts showed how fires were started in early American days. Troop 26 was in charge of Scoutmaster, ORVAL J. (BLACKIE) UMPHREY.

The PIONEERING Scouts made things of rustic materials at hand. Assisting with this was EDWARD B. HODGE of Troop 10 which is CSC'S team and CARL FREEZE, Scoutmaster of Troop 13 .

WEE ONES WELCOMED TO SCENT SCENE



The LEO SHAFFERS added another daughter to their nice collection. DARLENE SUE was born at Saint Anthony's March third. She weighed 8 lbs 8 ounces. Her sisters and brothers include DORIS, KENNETH, BOB, ANNA MAE, MARGARET, LEROY and VICKIE.

PAMELA JILL arrived March 29th at Union Hospital. Time, by the pink nursery clock, was 11:37 A.M. The ELMER GARRETTS were there to claim her. The 6# 14 ounce lady has a sister, DIANA RUTH.

EMERY TOOPS proudly announced the addition of another son in his family. JAMES BRIAN blew in at 6 P.M., March 21st, weighing 8# no ounces on the Saint Anthony weighing gadget. His brother, EMERY EARL III is heartily in favor of all this.

EX-GIs REPORT AT CSC BASE

Fellows in Korea, Iceland, Alaska,and all the ships at sea, please note. Some of the fellows who went from CSC to military service ARE getting out. Just the past ten days we have welcomed home, CIVILIANS, TOM PESTOFF, VIRGIL L. ROYER, SHANNON R. WHITE and BILL STRAUSER. When all these fellows get back on the payroll, we will have received back from military service 32! Keep your chins up.

MRS. T. P. WALKER ENROUTE TO EUROPE

MRS "MAJOR" WALKER left on the U.S.S. UNITED STATES for a trip back to her native France. She will also visit Spain and Italy. She will come back to the States in June, returning on the Queen Mary.

PENICILLIN FINISHING

Glad to have NETTIE DONHAM back after a short illness. NETTIE likes her new job at South plant. JO ANNE GOODWIN, SCARLET HORSLEY, KAY TURNER, BETTY LYNCH, NORMA RAMSEY and FLOSSIE GODFREY have been welcomed to Pen. Finishing. Also receiving a glad hand is new bossman, BILL SULLIVAN.

GEORGE and ANN HART visited in Memphis, Tennessee last weekend. What happened to ESSIE MAIL'S shoes? One belonged to her sister and was far from mates. JO ANNE COX is driving around a '50 Ford. Shore is purty. WILMA MCDANIELS received one of those exciting telephone calls informing her that a certain guy had arrived in the States from an APO or FPO.....BETTY SCOTT is now MRS. LEON HERAMB.

YARD GANG

Fron the latest information we learn that BOB "PIPEFITTER" SMITH and WAYNE "Jetman" PLIMMER - ardent Tech supporters - are now known as the "Brown Twins."

OUR SINCEREST SYMPATHIES TO MRS. CECIL WATTS in the passing of her mother,March 18th. A nurse in the first World war, the mother of Mrs. Watts has been at the Veteran's Hospital for quite some time.

VISITORS

Twenty members of the Riley Sunshine Club with Mrs. Katherine McIntosh visited the penicillin plant, Wednesday, March 18th. Twelve students from Otter Creek High School came to see us on the 20th and sixteen students of the Cory High school chemistry class were our guests last Tuesday. Their teacher, R. Oglesby accompanied them.

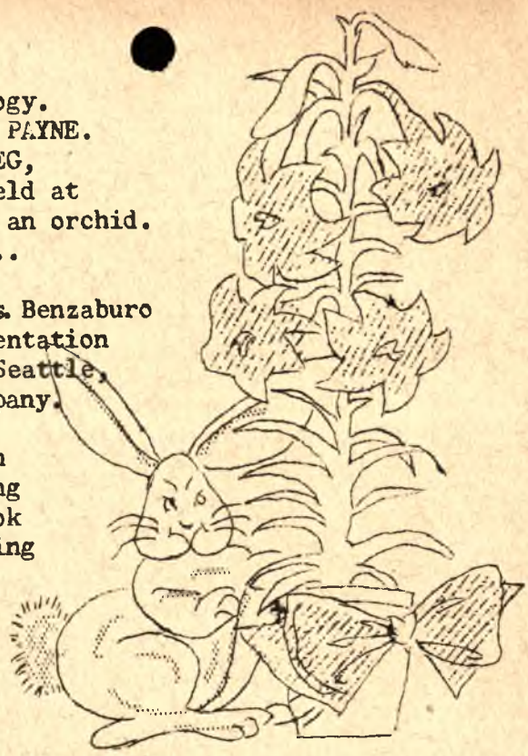
RESEARCH NEWS - BETTY HUGHES



DICK JOHNSON is back with CSC and in pharmacology. He returned March 23rd and is working with HAP PAYNE. ....A very beautiful orchid was presented to PEG, wife of DR. WM.F.PHILLIP, at the flower show held at Swope Art Gallery. Every 500th lady received an orchid. PEG was the 6500th person to visit the show.....

Visitors to Research on March 20th included Drs. Benzaburo Kato and Kyoylin Kawasaki from the Kyowa Fermentation Company, Ltd., of Japan and Thos. T. Ogawa of Seattle, Washington. He is from the C.T.Tabeahashi Company.

Dr. Tresner and family are making their home in at Arlington, Virginia. Dr. Tresner is working for the government in Washington, D.C. He took pictures of several of his friends before leaving so they could be with him photographically.

LAWNIE WAGNER took off for Staunton, Indiana on an old route he used to travel some ten years. There had been some changes made. LAWNIE was lost but finally wound up on State Road 59....

DR. EGLY recently visited his father in Fort Wayne. The father is suffering from a broken leg and pneumonia, of all things....DR. ART CAMPBELL LEFT March 28th for Hinkle, Oregon where he will have a nice visit with his mother who will soon be 88 years old....

BETTY HUGHES left her locked car in a Louisville Parking lot. Upon returning she found a window in the car had been forced and clothing and personal belongings missing. And it was quite a blow to her to know that the insurance didn't cover loss of personal articles. Well anyway, the radio and heater were still there - and the car.

There is much discussion in the halls of research of formulas? no. engineering problems? no. Fermentation? No. It's about Marilyn Monroe!!!! WALTER GERARD's recent visit to Hollywood has accelerated the discussions. He tells us that entertainment there consists of 3-D movies, gin rummy, radio and T.V. GERARD was sold on the nonstop flight west where he had a ringside seat for Pikes' Peak, Grand Mesa, Hoover Dam. The flight down the course of the Colorado River brought them to Bright Angel Point, Grand Canyon just before dusk. The setting sun brought out the rich reds and purples of the formation. A perfect time for viewing the Canyon.....

A flask made a convenient vase for lovely Easter Lillies which were brought into the Assay Lab.

ORDER DEPARTMENT

Pontiacs and Diamonds are the rage in Order Department. VIRG HAMELMANN, HOWARD SUTTLE and FRANCES ZIMMERMAN have Pontiacs. SALLY POLLITT has a small boulder weighing down her left hand. She will have another ring to go with it in August. The fortunate man is DON WHITLOCK who is on the faculty at Woodrow Wilson High.

DERIVATIVES

We wish to welcome KENNETH FLEETWOOD, and in the same breath, say "Goodbye" to GILBERT WALKER ....We are losing our esteemed traveler, author, scientist and lecturer, MR. ROBERT E. FINCH, to Dr. MCMILLAN. Sure sorry to see him go..

In BOB FINCH'S place, as Superintendent, we have the renowned golfer, bowler and tropical fish enthusiast, ROY C. MITCHELL. This is MR. MITCHELL'S third trip to this department. We hope he brings with him Mitchell's Magnificent Method for Making Millions of Molecules of Mono Methylamine Monthly.

SOUTH PLANT PACKAGING

Spring has sprung at the south plant. Nature is grand, and like perennial Annie Rooney, we're glad all over. BEN RAUSCH is taking his spring jaunt to New Orleans. FLOSSIE SPEARS is doing her spring housecleaning.....FLOSSIE GODFREY has a new office. She has been transferred to North Plant. NETTIE DONHAM is replacing her.

MAC MCCULLOUGH can't keep track of his pipe. Are people trying to get him to quit smoking the thing?....VIRGINIA BOYLE made a trip to Saint Anthony's Hospital Friday and leftall of her teeth there, when she came away.

CSC THREE-RING CIRCUS

When BILL HUTCHINSON (Electric shop) left CSC for his job at the Federal Prison(to be a guard)- he was presented with an electric alarm clock. He naps every noon and the boys didn't want him to lose out due to oversleeping....Bachelor,DALE ROYER to goodlooking girl "I can't even whistle at you this morning, the bacon was too greasy."......ADRIAN RAY'S yard is quite a showplace now with its breathtaking display of golden Forsythia. The RAYS' live south of Margaret Avenue - 3027 So. 7th.....GEORGE TIPTON, Jr., (accounting) picked up his family at Sarasota, Florida after they had had a month of glorious sunshine, and brought them back to Indiana in the big snowstorm....Colorful ESTILL ROTH describes a worm - "It is similar to a horseweed worm that works in Blackeyed Susans."......BOB (TIME OFFICE) SMITH, assisted by BILL EVANS, spoke before a group of 100 students at Garfield High. The subject had to do with personnel problems.....

ERNEST FAGG, SR., wishes to thank everyone for the many cards and other acts of thoughtfulness which were shown him during his recent illness....Among the first to arrive on the scene at Lewis, Indiana, following the explosion, was Bob Payne. Nothing could stop the excitement-seeker - ditches, muddy fields, electric fences. If someone hadn't stopped him to warn him that the "souvenier"he was carrying was a live shell which could go off any minute, he would have been strumming a harp about now...

EDITH KNISELY and STELLA JOY brought a few magazines, good but old, one day and they were quickly gobbled up by the gals in Purchasing and Personnel. Some of the issues were a bit old, but now they know all about "How to Bank a Heating Stove" which ROSY REED found quite interesting. JUSTINE NEVINS recommended an article on "Sewing the Kids into Winter Union Suits".....Martha Swanson clipped a cape pattern and was informed by the Pattern Department at Meis that the thing had been out of print for four years!.....

EINAR SISSENER INVADES AND CAPTURES SOLVENTS. EINAR SISSENER arrived from Oslo, Norway not too long ago - maybe two weeks. He has already made more friends than Dale Carnegie. EINAR - pronounced EYENER - will be with Solvents several months. Before returning to Norway in June 1954 he will take graduate work in the School of Industrial Management at Massachusetts Institute of Technology.

According to WILBUR KEKO, Einar is quite the tree planter...Also if anyone has a sailboat and needs a Seaman First Class, SISSENER is your man. He is a graduate of the Technical University of Denmark, having earned a degree in mechanical engineer

No. 269 APRIL 16, 1953 Terre Haute, Indiana

THE INTERNATIONAL SITUATION....

EINAR SISSENER of Oslo, Norway (extreme right) is being welcomed to CSC by some fellow Scandinavians and WILBUR KEKO, Supt. of Pharmaceuticals. Einar will be at the local plant several months. Before returning to Norway, in June 1954, he will have had some graduate work at M.I.T.

Reading left to right: FRITZ DANGA, who fled the communists out of Latvia and for seven years was with Upsala University in Sweden. MARTHA I. SWANSON, originally from Surte, Sweden; WILBUR, how-did -this-non-Scandinavian-get-into-the-picture? KEKO and EINAR SISSENER.

BURMA MEETS NORWAY IN CSC PLANT YARD. Before a typically American setting - a Railway Express truck, -TIN HTOO, Senior Chemist of Government Drugs Mfg. Department at Rangoon, Burma, meets JAN JOHANSEN of Glomfjord, Norway. Jan has been at Solvents on a Marshall Plan scholarship. He is now enroute back to his homeland.

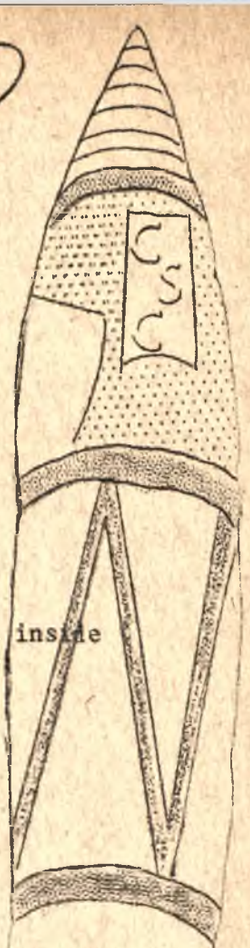
SCOUT CIRCUS . . .

CSC'S SCOUT TROOP 10 is shown with the sturdy bridge they built. Their project was pioneering. FRED CHAPMAN (Boiler Room) is shown at extreme left.

CARL FREEZE (Control Lab), left, is Scoutmaster of Troop 13.

HENRY FICK, (Purchasing Dept.) was Co-Events Director. Here he is leading the Parade of Cub Scouts.

SPACE SHIP



On LUNAR DAY (that's Saturday, April eighteenth) CSC'S first space ship will leave Terre Haute for the moon. The take-off will co-incide with the opening of the Industrial Show at the Allis Chalmers pilot plant on East Wabash.

Thereafter a space ship will zoom away every five minutes. These huge, shuttling cargo rocket ships will carry material consigned to Wheeler Bay, which is a pitted surface of a landing area not far from the Lunar North Pole.

For those of you who know little of CSC'S space ship operations, you might be interested to learn that the 36 tons of NOR'WAY & PEAK Antifreeze, Penicillin, Bacitracin, etc., are unloaded in minutes by queer little men in space suits. These supplies are not stacked inside the receiving station as on earth, but are left floating in space. They need no securing because the satelite is traveling around the earth at 15,840 miles an hour. At that speed it can't be affected by earth's gravity. The packages never fall because there is no air resistance. On rush shipment, by the way we have an arrangement with the Hines Space Taxi Company whose tiny pressurized rocket vehicles, (to which cases and drums are attached) rush the material to short distances outside the space station area.

Captain Video hopes to be on hand at the Industrial Show to explain our operations. Just listen for the siren which means that another ship leaves for the moon. Remember CSC'S slogan "WE SHIP ANYWHERE!!!"

ATTENTION GOLFERS: Spring is here. All men interested in playing golf in the plant league, watch bulletin board for further details.

SERVICE AWARDS - APRIL 1953

BEULAH M. CANTRELL received a one-star pin in celebration of five years of trafficking at our favorite Rocket Ship Base. Two-star awards were given ROBERT A. APPLE, HERBERT B. HUNT, CARL E. KELLER, OREN J. MYRTLE, HAYDEN D. PORTER and FRANK E. WEST.

THANK-YOU NOTE FROM JAN JOHANSON, GLOMFJORD, NORWAY.

"Now when I am leaving I want to thank you all at C.S.C. for all you have done for me and for giving me a profitable and pleasant time."

COMMERCIAL SOLVENTS IN THE NEWS

LOOK MAGAZINE devoted several paragraphs and one photograph to CSC'S part in the Dextran picture, in their most recent issue. Of us they said:

"In 1948 Commercial Solvents Corporation scientists in Terre Haute, Indiana began research to rid dextran of its faults. Starting with ordinary table sugar, fermented in vats, they refined a sticky yellow scum into soft pure white powder.

"Finally, in December 1949, 12 pints, bottled by hand, were sent to Dr. Walter L. Bloom at Emory University to try on patients. Dr. Bloom, who had experimented with Swedish dextran, compiled more data from these first dozen pints of CSC-made dextran than had been obtained in Europe from thousands of cases. His findings were so encouraging that other researchers began exhaustive human and animal experiments....."

INDUSTRIAL and ENGINEERING CHEMISTRY MAGAZINE for April also carried a story of Dextran-CSC.

The cover page and seventeen other pictures, taken at the local Dextran plant, were used to illustrate the article which was written by Gordon H. Bixler in collaboration with GEORGE HINES, DICK MCGHEE and BOB SHURTER. All the pictures were taken by Spirit photographer, GENE SHOOK.

Fourteen pages were devoted to our development of Dextran. Some of the CSCERS who are shown in the pictures are RALPH SMITH, RAY MORRIS, JACK AMMERMAN, BILL BOYLL, MELVIN BOOTHE, WES ELLINGER, ROBERT ROBSON, SR., PAUL STRAIN, GEORGE SLAVENS, JOHNNY DUBBS, GENE RICHMOND. The Front cover featured tanks and ROBERT COOMBES. And on the back cover we found AL MILLER and DUNK THOMPSON. *HOW POPULAR CAN WE GET??*

SHIFT NO. 1, DEXTRAN

SHIFT NO. 1 loses PAUL MCWILLIAMS and gains DANNY BUDD, SR., DANNY BUDD, Jr., intends to welcome his Dad to Dextran with fitting ceremony Sunday morning. It will be confusing having two Danny Budds....JOHN HOWKER must really love the ole Hoot Owl. He prefers the owl,next week,to days. "BUCK" GRAHAM is learning all of HOWKER'S tricks on how to keep shift #1 moving. BUCK hails from methylamine, and will be our new navigator. HOWKER hates to leave, but says he can use the rest.that he says he gets on hoot owls. LEO WHEATLY was much surprised recently when he found that there was more than one shift at Dextran....

IT'S TULIP TIME AT CSC

DEXTRAN SHIFT NO. 3

We bid a sad farewell to a bachelor and his dog team - the one and only JERRY ALLEN. Our loss is DIXIE PLANT'S gain. JERRY IS BEING replaced by RAY FLINT.
The Dextran Department bade farewell to their secretary BARBARA STEVENS. She journeys eastward to meet her husband at Norfolk, Virginia. Barb's husband JACK has just returned from a tour of sea duty and will become a land sailor for the next nine months before his enlistment is over....

TECHNICAL SERVICE

MRS. CHARLES D. GOODALE is making satisfactory progress following an eye operation at Saint Vincent Hospital in Indianapolis. She will be able to come home in about three weeks.....The sore muscles BOB DEWEY complains of are caused by a too-vigorous workout in his flower garden.

SHIFT NO. 4 AT DEXTRAN

The shake-up really hit shift 4. J.RIGGS left for Annex Control room..H.BROWN will be in Process seed room...C.BRUCKER now works hoot owls and 4-12. (he hates days.) BILL FOXWORTHY and JOE SULLIVAN are now members of Shift 4....PAUL STRAIN "stopped" a deputy sheriff one nite. The judge said " $61.75 and don't drive for ninety days." Who had his picture taken at someone else's tank? and Who didn't like it?...Why won't WES get married. We know he has had an "offer." He stays clear of Prairie Creek for some reason....

PURCHASING DEPARTMENT

In case you hadn't tuned in, WINDY PAT BURCHFIELD is getting a new car. Instead of driving, she will be flying between here and Rosedale....HENRY FICK now qualifies as an expert on fixing stapelers, watches and various office machines. His charges are nominal....There is an air of mystery surrounding RON BURTON. Just who did he buy the jewelry for??? A gal here or back East???

RESEARCH NEWS - BETTY HUGHES

After a long stay at the bottom, the Research Operators bowling team is soaring in second place...MESSRS CARSWELL, BACHMAN & MARTIN send congratulations to all old bacteriologists. According to T.S.C., these fellows never die. This might have been bro't on by the announcement of Sir Alexander Fleming's marriage at age 71...DR. HIDY spent several days in Chicago attending the Federation of American Societies For Experimental Biology. He ran into former CSCERS, Dr. BENNETT and JERRY SNYDER...

SUE HENDERSON celebrated her birthday, April 13th..Research receptionist, DONNA FATCH, her husband, Karlin, and another couple enjoyed a vacation which included Marengo Cave, Mammoth Cave, Lookout Mt., Rock City Gardens, Ruby Falls, Smokey Mountains, Evansville Zoo, Monuments to Abe Lincoln in Southern Indiana & Illinois.....BETTY HUGHES took a 2,000 mile jaunt which found her in Cleveland, Buffalo, Niagara Falls (but no Marilyn Monroe did she see); saw the Shrine Circus in Buffalo; visited the White House, Washington's Monument, Unknown Soldier's tomb, Lincoln Memorial, Pan American Bldg., saw a small man-eating fish - the Piranhas - at the acquarium; the beautiful floats which was part of the Cherry Blossom Festival, the Pentagon Bldg., the Mint.....everywhere there were friendly people (No doubt, tourists from Indiana)

Dr. CAMPBELL's trip to Oregon included rabbit hunting, which was a joy. The rabbits apparently came to the hunter and begged to be bagged for he got ten of them a la rifle. He spent the two weeks with his mother. WANDA CAMPBELL'S mother was visiting in Portland at the same time. ART visited Glacier National Park and witnessed a terrific snowstorm. The Northern Lights - Dakota version - was worth seeing.

PARKING LOT BLUES - Please do not park in the turnarounds on the parking lot. Also watch your parking along First Street. Please keep car off sidewalks. Thanks....

PENICILLIN FINISHING

JOAN R. JOHNSON and PAUL COX are to be married Sunday at the Second Christian Church. WILMA MARTIN is to be her maid of honor....WILMA MCDANIELS has reached the long-awaited day when a guy named WAYNE arrived home.....BARBARA STEVENS left CSC this week to join her husband who is stationed at Norfolk, Virginia...RUBY TUCKER added another birthday to her list and celebrated the occasion at the Dinner Bell. Assisting her in eating birthday cake were MARTHA PRICE, WILMA ROONEY, JOAN SLONIKER and WILMA MCDANIELS.....ELVA DEETER is one of those early-vacationists. JOAN SLONIKER is pinch-hitting for her.....BETTY SCOTT HERAMB, recent bride, received a very useable utility table from the gals.

CHEMICAL PILOT PLANT - AL NECKAR

Ramblings from the Chemical Pilot Plant. KENNY ATKINSON is following the old adage - "In the spring a young man's fancy lightly turns to thoughts of a new car." EARL WRIGHT hit the jackpot the other night - three bass, one of them $5\frac{1}{2}$ lbs. (This reporter saw the heads but no bodies.)

ARMIE BAILEY is proudly wearing his two-star CSC button presented to him by Dr. EGLY. ....JOE MCCOMB'S is the proud owner of a new Pontiac. He is now in VIRGIL FAGG'S class.

GEORGE HINES DISCUSSES MODEL RAILROADING WITH SCOUT TROOP TEN

At a recent CSC scout meeting. GEORGE HINES showed a very fine film on model railroading. He had with him quite a collection of "rolling stock" which was the result of his own efforts. He discussed model railroading as a hobby. Several adult model railroad enthusiasts were present, including CSC Scouters HANS FISCHER, JOHN EVANS, GERALD WAGNER, JIM DAILEY, ED HODGE, FRED CHAPMAN and BILL JOHNSON.

The Troop spent the weekend camping at Carpenter's Lake as the guests of the ISAAC Walton League. ALEX TRENCH, FRED CHAPMAN, ED HODGE and BILL JOHNSON tried to emulate old Ike without any marked results - but a lot of fun. Several of the boys, however, proved quite adept with a rod and reel

TOM CRAIG TO CONDUCT CLASS AT OAK RIDGE: TOM will teach a course in "Radioactive Tracer Techniques in Industry" at the Institute of Nuclear Studies at Oak Ridge..

"Easter Sunday. Well I'm way down here in the sunny south... Our basic training starts tomorrow morning. We've really been on the ball since we've been in the army. I attended a beautiful Easter Sunday church service this morning on the lawn of the Co. Chapel. I don't like this life as well as good ole CSC but I guess I will live thru it. Tell MAX DICKERSON he can start writing all those letters he promised.....It will be good to hear from home... Does anyone there ever hear from PETE TAYLOR. If so I'd like to have his address. (PAUL R. TAYLOR, ENFN 4306688, "M" DIVN, USS ASKARI (ARL 30) Fleet Postoffice, San Francisco, Calif.) I was appointed assistant plattoon Sergeant this morning. What this means, I don't know but I'll find out sooner than I like, I expect..... Where does EXPANDEX Bowling team stand by now, and PLEASE send me the Spirit." (Editor's note: Looked up my racing form and found that Expandex is in 14th position with 15 won, 21 lost.)

MRS. THELMA MCKILLOP

"Am writing you to let you know that my son, Donald would love to have the CSC news forwarded on to him. He has missed it a lot since he has been overseas. Looks forward to it for so much news of ones he knew while working at your plant. He writes that he is well and has been kept quite busy. He is a radio operator on C-54s and has been all over Korea. In flying back troops from the war zones, he has run into several fellows he knew. Writes that he still hasn't gotten any news from or about GENE SWALLS who has been missing in action. He went into service and took his training with Donald at Sampson Air ForceBase. Sure did hate to hear of his being missing. Hope he will soon turn up. DON hopes to get back home in August, if not by October. Wants to tell all hello and hopes to be back with them again some day. His address is A/2C DONALD E. MCKILLOP AF 1638 6191, 21 troop carrier Sqdn, Box 286, APO 704, %Postmaster, San Francisco, California....."

CPL GARLAND TODD, NG 22998324, Company H, Reception Center, Fort Sheridan, Illinois

"Sure wish I was working at the plant instead of doing what I am. The time is going fast. I have already been in over a month now. I am going to get shipped out either this or next week. I will probably go to Camp Atterbury or Fort Riley, Kans. This is all I can think of for now..."

PVT. GLEN R. BARRETT US 5530 4775, Co. A 361st E.C.B. 4th Platoon, FORT LEONARD WOOD MISSOURI

".....It's about summertime now and pretty warm here today. Sure would like to be back at the East Plant. Sure hope the same gang is there....Maybe I'll get a furlough before long ....I got the Spirit the other day and was sure glad to get it. Keep on sending it. ...I think it is nice to get it w hen a person is in service because we know how things are going and what things have been added...I am not in the hospital any more. I am in a training center but am unable to take training on account of my leg. I can't walk too good and my leg still goes out from under me. ...I don't know what they are going to make out of me yet, but right now I am a barracks orderly....."

PFC WILLIAM H. BAUER, US 5526 8624 A Co. 703rd ORD. BN APO 468, % PM SANFRANCISCO,

".....I read in the Spirit where HARVEY MILNER is back at work. I'm glad to hear that he made out okay. Tell him to drop me a line if he can. The platoon that I am in moved over to the 65th Infantry Regiment to take care of their vehicles. I guess I am going to be strictly a tank mechanic now. We start to work on them tomorrow. They sure are in bad condition. They were all operated by the Puerto Ricans....I guess they didn't give a darn and they let the tanks run down. The roads over here have been in bad shape ...They haven't been able to get our supplies in to us - consequently we have been eating quite a bit of C-ration.....I got JIM WHITE'S address out of the Spirit and have written him. I got an answer back already! Maybe we can get together some of these days. I don't believe we are too far apart. ....Please keep the Spirits coming as they are awful good for my spirit. I made Pfc today. "

CSC WINS FIRST PLACE AT INDUSTRIAL SHOW.

For the second straight year, CSC has won the First Place Award at the Industrial Show sponsored by the Junior Chamber of Commerce.

An estimated 65,000 persons visited the Industrial, Auto and Home Show.

Solvent's exhibit featured a small space ship zooming every four minutes to the moon. A belt bearing miniature packages, cans and bags of CSC products moved constantly from the model CSC plant to the Space ship loading platform. VEDDY CLEVER.

HOMER KIEWEG NAMED THE "INDUSTRIALIST OF THE YEAR." BY JR. CHAMBER OF COMMERCE

CSC took top honors on two counts during the recent Industrial Show sponsored by the very ambitious Junior Chamber of Commerce.

At the preview dinner given on Friday evening, April seventeeth, HOMER KIEWEG was presented with a handsome plaque which named him Industrialist of the Year.

This plaque is the first of a series of annual awards which will be known as the "BEN PFISTER AWARD" and is given for outstanding contribution to the development of Terre Haute area in the interest of its citizens."

HOMER was Events Director of the terrific Boy Scout Circus which ran for two nights at Indiana State Gym, before packed audiences. He is currently holding jobs in Red Cross, Community Council, Community Chest, Parent-Teachers; has completed a stint as Scoutmaster of the Bethesda Troop and has served on the Scout Council, and with the Mental Health organization.

Besides all this he packs a wallop for CSC. CONGRATULATIONS, HOMER KIEWEG!

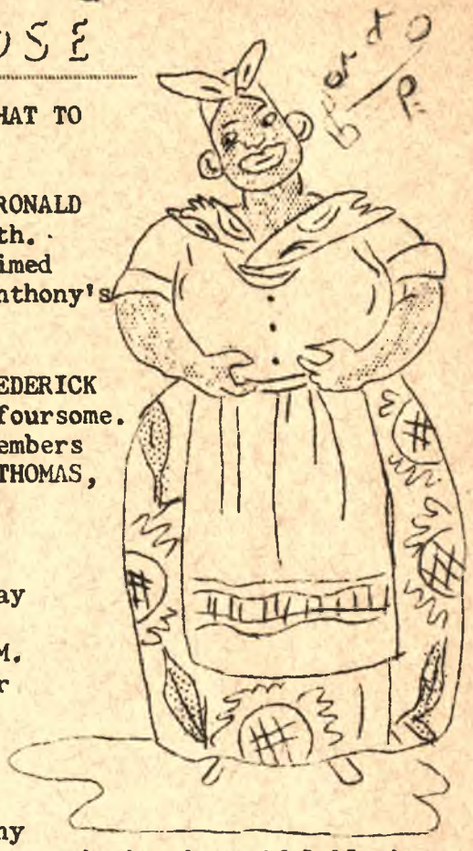
MIGHTY LAK A ROSE



SWEETEST LITTLE FELLER, EVERBODY KNOWS, DON'T KNOW WHAT TO CALL HIM BUT HE'S MIGHTY LAK A ROSE.....

The WALTER GERARDS might have sung this song about RONALD CRAIG when the Easter Bunny brought him on April fifth. To make sure he would be the first Easter baby, he timed his arrival at 1:44 AM. Ron weighed 9# 4 oz on St.Anthony's scales. There's a fine sister, TERRY ANNE.

THE LEO P. ALLENS have a mixed quartet! MICHAEL FREDERICK born, April eighth at Saint Anthony's completed the foursome. The 6 lb 8 ounce tenor arrived at 12:45 AM. Other members are MARGARET MARY, soprano; BARBARA ANN, contralto; THOMAS, basso.

We were sure JACK CROSBY would name his new daughter Guamella or Guamilette in fond memory of his long stay on the famous island of Guam, but no, she's JANICE NOREEN, the Crosby Queen, born April 19th at 10:21 AM. The 8 lb 11 ounce bundle is quite a joy to three year old brother, JIMMIE.

No. 1 on the CHAPEL Popularity List is MARCIA DENISE, 7# 10 ounce daughter born to the CHARLES CHAPEL on April 21st. The Toni Permanent Company can go out of business as far as Marcia is concerned, as she has beautiful black CURLEY hair. Her daddy is just back from a military stint with the army.

MAIN OFFICE GOSSIP by MARTHA "WEEGIE" GRAY

Honoring MRS. PEGGY LIGGETT of the I.B.M. Department, a dinner was given for her at Louise' on Thursday evening, April ninth. Those attending included NANCY LEE, ROSEMARY REED, MARTHA GRAY, CHARLOTTE RINGHAM, CAROLYN MEADOWS, LORENE WARD, BETTY MORETZ, CHARLOTTE EVERLY, FRANCES ZIMMERMAN, BETTY BRAND, SHIRLEY HAMELMANN, DOLORES MURPHY and PEGGY.....

KENNETH ROMBAUGH said farewell to the accounting department April 14th. He has accepted an appointment with the Atomic Energy Commission at the Wabash River Ordnance Works.....MRS. FRANCELLA ROYER of Bowling Green, Indiana is the newest member of the Accounting Division. She is the wife of VIRGIL ROYER who is in our control lab....MRS. STELLA WRIGHT has replaced BETTY WHITE who resigned to join her husband who is militarily occupied in Florida.

DRAFTING DEPARTMENT

GEORGE VINCENT left Friday for the U.S.Army....BARBARA MILLER STEWART has returned to work after a brief illness.....HOWARD HARMAN has a new granddaughter, SUSAN HARMAN, born April 17th....E.S.JOHONNOTThas returned to his home following several days' stay at Union Hospital.

RIBO, NO. 3 SHIFT

With JACK LOWDERMILK'S leaving for Dextran, M.LEE is worrying about who will now coach him in the art of grass growing. MUCK LEE has been having a hard time getting grass to grow where he wants it. But so is life! JACK CROSBY contends that his grass will not grow under water. Lowdermilk insists that regardless of how much rain we've had, the lawn needs sprinkling anyway. On and on into the night. Anyone having a portable electric pump, please notify CROSBY who now has added baby-sitting duties to grass growing.

SHIFT NO. 2 DEXTRAN

A belated welcome to DALE ROYER, DANNY BUDD, SR., and BOB CORBIN to Shift No. 2, and regrets at losing BOB ROBSON and JOHN VOLL....RAY MORRIS is all settled in his new home in Hulman Meadows. Of course, there's still a little landscaping.....

SPRING HOUSECLEANING by GEORGE SLAVENS (Poetic License #48392-Indiana)

There are many things to be said about spring, There are birds, and bees, and everything. The happy faces and jolly smile to make you think that life's worth while.

But house-cleaning is why I worry. With the little woman it's always "Hurry!". Wash the woodwork! Clean the paper ! Those and a thousand other capers! But I know that Spring is here to stay. Pssst! where's my fishing tackle - I'm gonah steal away.

SERVICE AWARDS TO RETURNED MILITARY

CSC is proud to present to nine former military men, service awards which they are a bit late in receiving. (The reason for this is that Uncle Sam is so stinky about letting the fellows wear extra medals on their uniformed chests)

TWO-STAR BUTTONS went to ORVAL J. (BLACKIE) UMPHREY and DONALD J. ELLIOTT.

ONE-STAR BUTTONS - JACK H. CHURCH, GENE F. GOODWIN, JOHN C. LOVE, CARL E. LESLIE, VIRGIL L. ROYER, DALE L. EVANS and PAUL E. MATHERLY.

VISITING FIREMEN

CSC's Welcome Mat is out!

Last week two young French Women - Miss Mirelle Courouble of Mont St. Eloi and Miss Denise Fondeux of Epinal visited us. An interpreter, Edward Gravez, French employee of the MSA, accompanied them.

Miss Courouble and Miss Fondeux are home economics teachers in France, teaching at special agricultural schools. They are here on an exchange program sponsored by the Mutual Security Administration.

Also in the party were Mrs. HOMER KIEWEG in whose home the two women were staying, MRS. FRED DUDLEY and MRS. PAUL ISENBURG.

On Tuesday, April 21st, approximately 30 members of the New Goshen High School Biology Class visited Research and Penicillin....

Twelve students from the Eastern Illinois State College, under the direction of Prof. Hiram F. THUT toured penicillin plant last Thursday.

On Tuesday last twenty-five members of the National Association of Cost Accountants spent an hour at Dextran plant and then visited Research Laboratories. This was followed by a discussion period in seminar. ED KING, a member of this Association, coordinated the arrangements.

Three busloads of seniors of the Brazil High School and their chaperones know now what makes penicillin plant tick. They spent several hours here last Tues.

On Wednesday sixteen members of the Sullivan Home Economics Club toured penicillin.

BLOOD DONORS SERVICE

As we have asked before, please do not suggest to outsiders that they call Commercial Solvents for blood donations.

We have had to make it a rule that our employees' giving be limited to the employee and his immediate family under his roof.

by JOAN SLONIKER

JOAN JOHNSON is now MRS. PAUL COX. PAUL left April 21st at the insistence of Uncle Sam....It's June wedding bells for VELMA STUFFLE and HUBERT MATHERLY.....Could someone remind DOROTHY KISNER that the trash can is not the place for her uniform ?.... Is JIM WATSON thru with women??....HARRY STEWARD is welcomed to Penicillin Finishing. ...WILMA MCDANIELS' new sparkler seems to neon the name of WAYNE GORDON..FLORENCE ROGERS and MARY REAGIN are adding another year to their lives Saturday...MARCELLA HERRINGTON now driveswith licenses...

MRS. WEST heard an unfamiliar buzz one morning . Alarmed, she told PAUL that she would leave for the day if he didn't find what was buzzin'. On the television antenna presided a baby woodpecker !

RESEARCH NEWS BY BETTY HUGHES

A couple of days before she was six months old, GEORGE CRAIG'S daughter, GEORGEANNE hatched two teeth!.....ERWIN SOMOGYI of Monsanto Chemical Company, Everett, Mass., visited Hillhaven and Lockport Research farms. He was accompanied by T.S.CARSWELL. These two men were former associates. Mr. Somogyi is now Director of Research at Monsanto...BARBARA LOCKE has already enjoyed a week's vacation...

LAWNIE WAGNER served as special police at the Industrial Show on East Wabash. It gave him plenty of time to look at the Commercial Solvents' prize-winning exhibit! BETTY HUGHES visited the Indianapolis Home Show last week. The display which caused her to look again was one which included a gal with GREEN hair!....

WITH THE YOUNGER CSC SET

SALLY, talented daughter of GEORGE HINES, walked off with first prize in a Girl Scout poster contest.....MARGARET, daughter of Engineer, ADRIAN STANLEY copped the English contest here which entitled her to compete at Bloomington last Saturday. Margaret is also a talented organist...

AROUND THE PLANT IN A FLYING SAUCER .

One of the colored employees at the Dixie plant commented: "That boy with the moustache (meaning GENE BOROUGHS) sho is a spoht" (we feel that "Spoht" is Southern for "sport.") By the way, GENE BOROUGHS rescued a pair of pajamas which were left in New York by DICK MCGHEE. It was reported to us that when BOROUGHS and MCGHEE arrived in N.Y. they were met by a collection of police and photographers. Seems that the Prince and Princess of Japan were just leaving. Then when GENE went to his hotel room he learned that it had just been vacated by the Japanese royalty....BEULAH CANTRELL will soon say "goodbye" to Traffic and take up residence in Florida.... Dr. SPENCER'S yard is blossoming as the rose. The reason is that his father-in-law, a retired botany teacher from Seattle, Washington, now residing in Terre Haute, is practicing on the Spencer lawn, the things he has been preaching these many years. Hats off to gardener deluxe, Mr. ALVIN SELTZER!!!

SICK BAY: We are happy to know that MILDRED DROUGHT, who underwent an operation some weeks ago, is making fine progress and expects soon to be back....HERB SMITH is still perched on crutches as the result of a fall he had at home....EDCIL KEEGAN progress is slow, but sure...."TEX" RIDDICK has been in sickbay. Missin' dat ole Texas sunshine, maybe?...CHARLIE SPLADY reported that he will be CSCing again after a sickspell dating back to December....Mrs. CHARLES D. GOODALE, who underwent eye surgery at St. Vincent's Hospital at Indianapolis, was able to be returned home Saturday. Her progress is in the right direction now.....RALPH HUGHES was ordered to take a rest by his doctor....CLARENCE MALONE is profiting by a period of recuperaing .....Three year old SHARON CAROL, daughter of PHILLIP MOORE, rammed a tin horn into the roof of her mouth. Four stitches. She seems to be going at her music on a wrong note...LARRY JOE, son of HARRY ROGERS was accidentally hit in the mouth and had to visit the hospital...ANNA MAE, small daughter of LEO SHAFFER fell out of a tree. lacerated arm!

WEDDING BELLS rang out for returned-GI PAUL MATHERLY and CHARLOTTE FIELDS. The vows were heard by Paul's father, Reverend James Matherly at the bride's home, April 23rd.

The diamond ring you've noticed on SUE HENDERSON'S finger comes from the U.S. Navy, NORMAN FLOYD...

THE FIRST MILLION HOURS

Yes, the first million man-hours are the hardest!

At 9:30, Wednesday morning, September 2nd, the plant whistle outdid itself in proclaiming to Terre Haute that a new safety record of a million man-hours worked without a lost-time accident had been set by Commercial Solvents.

This is the first time the Terre Haute unit has reached this prized goal of all industrial safety efforts. The previous record was 992,362 man-hours established in the latter part of 1952.

Accident prevention has always been a vital part of operations at CSC. During the last twenty years the accident frequency rate at the Terre Haute plant has been reduced from 50.7 lost-time accidents per million man-hours worked to the present 1953 rate of 2.0. This rate is half of the combined experience of the major chemical manufacturers. It is also half of the rate for all persons in the United States in all of their activities.

The local plant has twice won the annual contest in the Large Plant Division of Commercial Solvents Corporation, the last time being in 1951. The present company record is 1,291,853 man-hours recently set by the CSC plant at Dixie The Terre Haute group has taken it as its next target.

MAYNARD WHEELER wired his congratulations from New York. This message was read by HANS FISCHER at a mass meeting of the employees at noon. The telegram read "DEAR GANG. IT WAS REAL TEAM WORK THAT MADE IT POSSIBLE TO HAVE ONE MILLION MAN-HOURS WORKED WITHOUT A LOST-TIME ACCIDENT. CONGRATULATIONS TO ALL OF YOU. LET'S MAKE IT TWO MILLION!"

BUSINESS, INDUSTRY & EDUCATION DAY A GREAT SUCCESS

From the C.S.C. point of view, BIE Day at Solvents was a great success. We had a group of gracious and interested teachers as our guests - the cream of the crop.

The day followed much the same as last year, with an inspection of the South Packaging line and the Antifreeze plant. At noon there was a fried chicken luncheon at the Golden Pheasant; a picture in front of Research Center at 1:30, followed by a seminar.

The seminar, presided over by HANS FISCHER, plant manager, featured talks by WILBUR KEKO, Superintendent of Bulk Antibiotics; RALPH BURROFF, Superintendent of Dextran Plant; MARVIN C. BACHMAN, Director of Microbiological Research; HOMER KIEWEG, Manager Central Division Production Department. Following this, tours were made thru Research, Pharmacology and Dextran plants.

Teachers attending included MRS Beulah Edwards, Mrs. Ellen Henderson, Mrs. Virginia Sterling, Mr. Charles H. Pierson, Miss Leona Heramb, Leon Purcell, Paul Scamihorn, Mrs. Merle Shepard, Mrs. Elva King and Mrs. Winifred Weddle of the County School; Sisters HELEN JOAN, ANN GRABRIEL, HELEN JOSEPHINE and WINIFRED of the parochial schools; Mrs. Gladys Crockett, Mrs. Margaret Dannenbrink, Mrs. Charlotte Jones, Mrs. Mary H. Mann, Mrs. Gaynell Williamson and Miss Vivien Sinclair of West Terre Haute Schools; Miss Helen Bungard, Thorval Mattax, Max Branson, Vane R. Rutherford, Mrs. Galena K. Ogle, Mrs. Thelma Chatman, Miss Gladys Gaston, Mrs. Helen Morgan, Miss Martha Pearman, Robert Blair, Mrs. Sara Willis, Miss Sue Brown, of the City Schools and Mark Williams and H. Kenneth Black of Indiana State Teachers College.

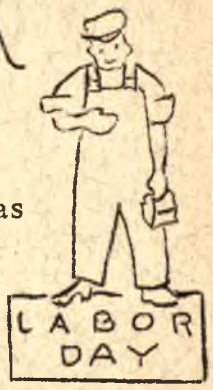
Those who had signed up for CSC and were unable to attend included Mrs. Millicent Uran, Leslie Evinger, James Clements, Miss Mary Chalos, Searle Proffitt, Miss Dorothy Duddleston, Norman Dunlap and Mrs. Ruby Neal Pound.

BLOOD DONORS-CSC AGAIN ON THE JOB

When the request for two blood donors came for MRS. MYRTLE HATFIELD (retired) two of our fine fellows went immediately to St. Anthony's Hospital to oblige. They were LES SCHRIVER and MAX KEEGAN. Mrs. Hatfield underwent major surgery and has now been taken to her home. She is most appreciative of the way her Company is standing by her even in retirement. The best wishes of all CSC goes to this grand person..

NOTES OFF THE CUFF: All the wonderful birth announcements will be shown in next Spirit.....STYLE SHOW for CSC femmes - October 1st, Deming Ball Room; luncheon and plant inspections for retired CSCERS, Thursday, October 15th...GENE SWALLS, released from prison camp enroute home on USS BLACK, "fine and free."...TRAVEL BUREAU in Time office has new map showing short-cut to Florida. Come in and get one..

SEPTEMBER



RESEARCH NEWS - Betty Hughes

JACK WESTHEAD, former Researcher, stopped in for a short visit. He now lives at Mooresville...LEE SUTTON was pinch-hitting for MURN LAW who was being lazy for a week..ART CLOUGH and family had an ideal vacation. It included a ball game in Chicago and Shafer Lake for relaxation..

Attending the A.C.S. meeting in Chicago this week are T.E.FREANEY, W.F.PHILLIPS, F.C.ARZBERGER, J.T.CRAIG, J,K.DALE, F.W.SCHMITZ, A.W. CAMPBELL, V.V. YOUNG, F.W.CHORNOCK, R.S.EGLY and JEROME MARTIN. CRAIG and FREANEY will present a paper.

A group of editors& veteranarians were guests of CSC Thursday, Sept. 3rd. They visited the CSC Nutritional Research Farms,also discussed of the value of antibiotic and vitamin feed supplements in the raising of pigs and chickens. A film "THIS LITTLE PIG WENT TO MARKET" was shown and this was followed by a trip thru Research and production plants. On Friday the people who made the Bacigro film, local newspaper reporters and radio personnel enjoyed the same kind of day.

JIMMIE ROYER also vacationed the last week of August...MARY HEADY and Derald enjoyed a weekend at Dunes State Park..OLEADA GOLDHARDT and husband attended the Indiana State Fair, Sept. 5th...August 31st ELLIS "ZEKE" TAYLOR showed up at the pharmacology building to do work with BOB BALDWIN on a nutritional research problem.. Wire frames are being installed in the Poultry Res Bldg for floor pen studies. The interior of this bldg has a definite new look..

SARAH R. JOHNSON rec'd a diamond from PVT. ALBERT E. STARR...We wish MARY & BILL GREEN a happy marri age.

RETURNING TO COLLEGE

To all those who are returning to College, we know you'll have the best of knowledge. When yo u're down in the dumps and feeling blue, your pals at East Plant will be thinking of you. When you are thru your college days, the sun will shine and brighten your way. There will be preachers, priests and teachers too. They are the ones who keep you from being so blue. Others are working for bachelor, professor and doctor's degree; all these - and the working people help keep our country free.

His herbs which had been sent to the dump were recovered. Hope they live

FLOSSIE SPEARS GIVEN"ORCHID"

Two weeks ago a representative from the Department of Labor was here. She made an inspection of all the ladies' restrooms at the three plants. Had an orchid been given, it would have gone to FLOSSIE SPEARS and the immaculate lounge and rests rooms which she maintains at the South Plant penicillin. Flossie not only has every bit of furniture gleaming bright, but there are many, many growing plants about to add a homelike atmostphere to the lounge.

SEOUL "Guess I'd better drop a few lines to my old stompin' grounds. Received a Spirit today and I am going to try to find MARION LESLIE if he is still here. (Editor's note - MARION is home and already punching the CSC time clock). I may also look up BILL BAUER.....What did you think of BILLY WEST getting married? It sure came as a shock to me. He never mentioned it in any of his letters. Guess he made up his mind when he was home...Tell all of the yard gang that I'll be back to see them in a little over a month...And I guess you'd better stop the Spirit until I get stationed at my next base, which will be South Dakota. I am going right up where Mt. Rushmore is. Will see you in September. PS CONGRATULATIONS on the First Place in the Industrial Show. You couldn't have done it without ole "Buck", ha,ha. "

"Graduated from basic training last Friday (Aug. 7th) It was a hard eight weeks and I am glad it is over....On the 17th of this month we start to school. I will get eight weeks of auto mechanics and will have a chance to take an advanced course, but I'll wait and see if I make it through the first eight weeks...I heard my brother is is working at CSC now. Hope everything's OK back at the plant...."

"How are all the swell people back at CSC?...We have been pretty busy and moving around quite a bit. I would like very much to start receiving the Spirit so I will know the latest news and what my buddies are doing. I arrived in Korea with BILL SMITH and several other fellows from Terre Haute. We were separated at Pusan. I was assigned to Love Company, the Wolfhound Regiment of the 25th Division.. It's a great outfit but there's nothing I'd like better than being back with my buddies at CSC. Those were the good days. I'm hoping to return in 14 months. "

PVT GEORGE A. TALLEY, US 55360114, Btry C 553rd FA BN, FORT SILL, OKLAHOMA

"Here I am back at Fort Sill, Oklahoma. Eight more weeks of training at the 8" Howitzer....It was sure good to get home and see the boys at the plant. Wish I was back. I don't like the darn army but I guess I will stay my time."

"...I am stationed in Berlin, Germany..I was really surprised to find out how it was over here. If anything would ever start, our goose would more than likely be cooked Our barracks are about 500 yds from the Russian sector. They say their artillery is zeroed in on them. Seems funny being right here in the city but we still have to read the newspapers to find out what is going on. One thing they really have a good beer. It takes only 3 or 4 bottles and you have a good jag on. Some of the beer runs as high as 32%. I think I will get a chance to play some basketball this winter. How did the baseball team turn out this year. They were doing pretty good when I was home last..Give the Spirits my address. It has been almost two months since I have been settled enough to get one."

"Alameda, California. ...It has been a beautiful week here. I spent most of it at Treasure Island waiting for my new ship. Most of the time you can only see spots of the Golden Gate Bridge from T.I. due to the fog, but this week we have had clear skies. My new ship is also a carrier as was the ORISKANY. It is built on the same pattern as the Big O...I was transferred to the PHILIPPINE SEA because I have only a few months to do and this ship will be in dry dock for quite a while. I see DALE MURPHY is getting released the same time I am. He and I were in boot camp at the same time. Have you had any news of GENE SWALLS. I know everybody is praying for his safe release. (Editor's Note: I followed up your inquiry on Gene Swalls only to learn that he had been released a day or so before. Today a cablegram was received from him aboard the USS BLACK, homeward bound.) I finally got that long-awaited promotion to PFC. I have been in the army about 10½ months, but it seems slightly longer than that...We have physical training 5 mornings a week from 0600 to 0615 hrs & inspections all afternoon on Saturday. Only advantage is, we don't have to do KP and have house boys to keep the barracks straightened up."

SOUTH PLANT

With temperatures climbing up around the 100 degree mark, we believe BILL LOBB, BEN MAYNARD, ORVILL SISSON and LUCILLE WIKOFF wish they had taken another week's vacation. Nevertheless, the ones who were endeavoring to carry on in their absence were glad to see them back Monday morning....ESTHER RALSTON was giving everyone a "HI YOUALL" after a weekend in Kentucky....DORIS ANDERSON, NORMA COLLINS, BEN RAUCH, CLYDE WHITE and HARRY ROTH are this week's vacationers...BETTY RIGGS who became MRS. ROBERT MONTGOMERY at a pretty wedding last Sunday, will be missed by her friends at CSC.,,BETTY DUSENBERRY was married Monday, September 7th...There's been some changes made in the Pharmaceutical packaging office. HARRY ROTH and GEORGE KINTZ have joined the force. Consequently desks have been switched around until one needs a directory to find anyone.

SOUTH PLANT PACKAGING

(Written before cool spell)
OH THIS HEAT! But do you remember the mornings when we awoke and pulled the covers up under our chin as a chill raced down our spine? Hearing that cold wind howling in the middle of the night? When we stepped outside the door and saw our breath puffing out like smoke from a locomotive. Jumping out of bed and turning up the thermostat? Zipping in the lining in our winter coats? And icicles hanging from the house roofs; snow piled up in front of the garage doors; hunting warm wool gloves wanting hot chili for dinner to warm us up on the inside?

CHEMICAL PILOT PLANT - Al Neckar

JOE MCCOMBS and BUCK BYERS are vacationing and will be joined by VIRG FAGG and JOHNNY BITTS...CHARLIE STEINBERGER hopes it will cool off before his vaca...EARL WRIGHT has been teaching his oldest son to bass fish. GENE SWALLS NOW HOME

For all of you fellows who have been inquiring about him, GENE SWALLS is home! He gave the plant a brief, but welcomed visit. He looked fine, having gained ten pounds enroute home from Korea. Gene's plane was shot down and he parachuted to safety - right into the hands of the enemy. Two of his front teeth are gone. We understand the folks over there didn't like a nice uninterrupted row of teeth. More about GENE later. Important thing - he's home.

DAN FENTON BEING FETED

DAN, son of OPAL FENTON, is also home from prison camp. He arrived in TH.Friday, September 12th, with a group of friends meeting him at the airport; then a big party at home. His mother's cooking "is really great", he says. We're certainly happy for the families of the Fentons and the Swalls that these two men have returned, and are well.

1953 BASEBALL SCHOOL GREAT SUCCESS

As you will see from the picture page, a group of fine and enthusiastic fellows living near the CSC plant, attended Solvents Baseball School again this summer.

This school was originated in 1948. The playing field, equipment, and capable supervision are provided by the plant. This year the services of "CHICK" DEARDORF (Research) and PAT GULLIFOR (Maintenance) were secured. Both of these fellows have had Physical Ed classes at I.S.T.C.

MESSAGE OF CONGRATULATIONS FROM OUR FRIEND AT CARLSTADT, N.J.

"Sincere congratulations from the Carlstadt plant to all in Terre Haute on the completion of their 1,000,000 hour safety record. This is without a doubt the most inspiring headline carried in the Spirit throughout the years." J.T. MORRIS.

Also from MRS. HENRY E. PERRY, Little Boar's Head, Maine - "Thanks for the Spirit. I was much interested in the splendid safety record...."

TERRE HAUTE SETS NEW NO LOST-TIME RECORD

519,800	manhours	10/15/48	to 1/11/49
584,266	manhours	12/ 7/51	to 2/29/52
902,362	manhours	7/18/52	to 12/26/52
1,099,000	manhours	3/25/53	to 9/18/53
???		??	??

Terre Haute's list of records for time worked without lost-time injuries is given above. The last period came to an end Friday when one of the men crushed a hand between two barrels. As they say - Records are made to be broken. With Terre Haute's increasingly better performance each year. The only question is - When will the new record be made?

Each job, before it is started, should be analyzed for hazards. It should then be performed so that the hazards cannot produce injuries. When hazards are known and guarded against, they cease to be hazards.

STYLE SHOW, NEXT THURSDAY

WOMEN OF CSC! Our fall style show is upon us! Next Thursday, October first, at the Deming ball room. Models will be employees and wives. The lovely clothes will be from Meis Fashion Floor. Organ music by Mrs. Alice Tarrh, wonderful entertainment, interesting door prizes, a coffee hour following. AND ALL FOR FREE! Show starts at eight o'clock. WE ARE EXPECTING YOU.

A THANK-YOU NOTE FROM EINAR SISSENER, 367 HARVARD ST. APT. 6, CAMBRIDGE, MASS

"On my way to school in Boston, after a nice stay in Terre Haute with C.S.C. and its wonderful people, I want to thank you all for everything. I guess you can stay happy now because I will not be back. But you never know." (Editor's note: Our favorite Einar writes that he is looking forward to studies at M.I.T., that the Graduate house was crowded so he's residing at above address.)

YARD VICTORIES OVER CONTROL LAB IN FINALE

The Yard Gang 9, Control Lab 8 in the plant League Softball Championship encounter.

It looked as tho JACK "Leo the Lip" KENDALL would mastermind the Lab to a victory in his first season at the helm but a determined band of yard-birds came up with a big 6th inning to to in front and stay there.

BILLY MCDANIELS with 3 singles and double; JIM MCCALLUM, 2 singles and a homer, and MIKE SOMERS and HAROLD TURNER'S circuit blows, led the winners attack while TEX MORETZ hit safely 3 times; JAY CENTER blasted out a homer and a single, and SHANNON WHITE and BILL GILTZ each connected twice safely for the Lab.

TENNIS SEASON HAS ENDED by GEORGE "BASELINE" APPELL

The tennis season ended with one out of four CSC teams reaching near the peak. CSC Peak team was in the playoff for runner-up to the champs. Those lost to Allis-Chalmers because of too much handicap and too much absenteeism from the courts to maintain their usual high standard.

VIRGIL HAMELMANN brought out his racquet and that large bulge over his belt line several times to dub for PAUL ISENBURG. In one match he forced the champs to near defeat.

NOTTER and HENSCHEN, after a poor start, were coming along like a strawpile afire at the close of the season. BROMFIELD & HERB WEHRMEISTER also ran. Everybody is looking forward for the next tennis campaign.

CSC STORK HEIR LINE

A DOUBLE FEATURE AT SOLVENTS!!! The MARVIN STEWARTS HAVE TWINS!!! BARBARA MILLER STEWART (formerly of Drafting) and MARVIN STEWART (Control Lab) will be heating twin bottles for months to come. The precious little newcomers are MARY JOSEPHINE, a dainty 3-1/2 pounds; and MICHAEL JAMES, almost six pounds. Union Hospital was the scene of the excitement; about ten o'clock, September 18th, was the time. Grandfather, PERCY MILLER (Time Office) is as well as can be expected. All he can say is "They're mighty fine lookin' kids," as he smokes another cigar.

It's a single at the JOHN LOVELLETTES. Patrick Allan received quite a reception from JOHN EDWARD, DENNIS RAY and MICHAEL LEE when he came home from Saint Anthony's Hospital He was born August 27th, 2:48 PM and weighed a good 8 pounds...

The FRED GREENWELLS added BRENDA JO to the roll call at 4:10 PM, August 27th. The 7# 4 ounce gal, born at St. Anthony's, was placed at the top of the list which includes CHARLOTTE ANN, ALBERT, ARTHUR, LADONNA, SANDRA KAY, CHARLES & VICKIE LYNN.

GLEN HOWARD is No. 4 at the MAURICE COOMBES'. This 8# 2 ounce guy was born August 28th, 8:40 AM at the South Side maternity center. He has two sisters, GLORIA JEAN and BARBARA ANN, and a big brother, SCOTT.

Word has been received that MARGE BENSINGER WERNZ (former Order Department steno) is the mother of a daughter, MARTY JEAN, born August 30th. The Wernz live in Evansville.

The DEAN NEWLINS are celebrating Their First - a daughter LEE ANN, born at Union Hospital, 6:45 PM, September 2nd. Proud Uncles Division in this case are GEAN NEWLIN and BILL BOYLL.

The MAX BAILEYS have a second daughter, DEBRA LOU. Debby was born at Union Hospital, September 5th, 5:09 PM. This eight-pound lassie has a sister, VICKIE LYNN, who is more than willing to share her dolls and comic books.

For the RALPH BROWNS, it's Son No. 2. DARWIN SCOTT was born 25 minutes past eight on Labor Day morning . St. Anthony's weighing machine recorded an 8# 10oz bundle. MARK YOUNG is the brother in the case.

JERRY MAX, born September 8th at St. Anthony's completed a male quartet at the FRED CHAPMANS. Jerry's weight was 3/4th of a pound over seven. The brothers who are waiting to start harmonizing are JIM, JOHN and PAUL.

Miss BARBARA JEAN is the Light of My Eye at the PHIL MOORES. She arrived on the STORK HEIR LINE, 1:08 AM, September 14th landing at the Union airport. 8 lb 13 oz BABS has a nice sister, SHARON.

It's PAMELA JEAN they're huggin' at the BOB HUGGINS household. All 8# 6 ounces of her arrived 8:53 AM, September 14th. Among her adorin' relatives are sister BECKY age 5, and brother DON, 9 years old.

Several folks had word from the JOHN CHRISTENSONS that there is a new son at their house. He was born August twenty-third. The Christensons, formerly at Terre Haute plant are now in N.Y.

TY CHESHER spent the day at Bud's celebrating the arrival of a son. All particulars such as name, weight, time of arrival, will have to wait until next Spirit. This makes No. 5.

COMING EVENTS CAST THEIR SHADOW

STYLE SHOW FOR CSC FEMMES - OCTOBER 1.

ALUMNI LUNCHEON & PLANT INSPECTION BY CSC retired in October. Definite date to be announced soon.

KIDS - do you have to be reminded about the Christmas party in December?

ED FENTON RELEASED FROM PRISON CAMP

Early Monday morning a cablegram date-lined Tokyo was received by OPAL FENTON (Quality Control) and her husband, that their son had been released from prison camp. The message read in part -

"DEAR FOLKS: AM FREE AGAIN AND HEADED FOR HOME. AM FEELING FINE AND RECEIVING EXCELLENT CARE. NOTHING WRONG WITH ME THAT GETTING HOME WON'T CURE.....TELL EVERYONE HELLO. LOVE."

The Fentons had been checking off name after name of the boys they knew to be in camp No. 1 with ED. Opal said that they were getting frantic for they knew the camp would soon have been emptied and ED's name had not been called. Mrs. Fenton had checked off the names of 35 Indiana boys who had been imprisoned there. They didn't hear the announcement when it finally came, but several CSCERS were tuned in.

The Fentons want to thank especially BOB ROMAN and DELBERT RUDISEL who gave them the wonderful news as soon as it had been broadcast, and to the many, many other CSCERS who has been standing by them in this their long months of waiting.

We are all rejoicing with the FENTONS and are eagerly looking toward the day when ED will again be eating Mother's cooking. And it won't be rice and fish. That's for sure....

PEAK and NOR'WAY ANTIFREEZE GCES T.V.

The lilting strains of "SWEDEN UP YOUR RADIATOR WITH A BIT OF NOR'WAY" will soon come floating to you over your favorite channel, for CSC is on the air!

WTTV Bloomington will have a network show starring RED BARBER - outstanding sports announcer. WFBM Indianapolis will have spot announcements. T.V. stations will carry the show in many communities in the USA, so watch for it. And gloat!

THOUGHT FOR TODAY: If you copy from one author, it's plagiarism. If you copy from two, it's research. - Wilson Mizner

JAMES V. O'LEARY RECEIVES PROMOTION

JIM O'LEARY, whose great, great grandma -or was it an aunt? - had the lantern-kicking cow in Chicago, has now been made Field Sales Manager, Industrial Chemicals and Animal Nutrition Division

JIM has been with CSC since 1927 and was most recently District Manager of the Chicago territory. He is being replaced by FRANK A. EMBREY, formerly district manager of the St. Louis sales office.

JOHN R. POST, a CSC salesman since 1947 was named District Manager of the St.Louis territory.

CONGRATULATIONS JIM, FRANK AND JOHN!

HOLLYWOOD ICE REVUE OCTOBER 15 - NOV. 4th

Barbara Ann Scott and her galaxy of great ice stars will again return to the Indianapolis Coliseum to delight us Hoosiers who go to our capitol city for delightful performance, year after year.

If we can talk the Coliseum people out of a few order blanks, we will have them for you in Personnel Department. There are no Monday night performances. Tickets range from $1.80 end mezzanine, $2.40 side mezzanine, Boxes and Parquet boxes $3.00.

WITH CSCERS IN A MINUTE AND A HALF

MRS. STELLA JOY (Main office) is recuperating at home, following surgery at Union... DEWEY WESTFALL, gardener deluxe, received a belated service award button for ten years of beautifying Solvents...DALE KIRTS appeared at a Shakamak Park swim meet in pink panties last Sunday, it was reported by one of the Spirit's seeing eyes...

GLEN CHURCHILL asked for "MAC" MCNAUGHT'S old desk which was being retired. He wanted it for kindling. The boys on the truck didn't understand and when they tried to deliver the desk via the front door, they were met by a determined Mary who said "Take that junk out of here and throw it out back. After all, MRS. CHURCHILL, that was a good desk in its day!

ELZA WHITE, one of our fine alumns, phoned the Spirit office to say that he and the Missus were moving to Florida. They will be living at 610 Lexington Street, Orlando and I'm sure that all CSCdom with a week or month to spend would be more than welcome. Just try it some time.

The SPIRIT TRADING POST has one satisfied customer! Thru it a $1500 trailer was sold by "SLIM" LEON who came in to say "Thanks" and inform us that"the trailer is now in my bank book."

Please remember that this is Old Stove Roundup Month. We also celebrated National Hot Dog week , Lessons In Truth Week, Tie Week, Child Foot Health Month, to name a few.

WEDDING BELLS

JUSTINE NEVINS, secretary to CLYDE ELLIS, and JOHN T. SABLA were married August fifteenth at Rosedale, Indiana. They will be at home to their friends at 1632 North 8th Street.

DERIVATIVES

HERB HUNT, HERSCHEL WEBB and JAKE WILLIAMS are three of those lucky ones who are taking their vacation...The R.C. MITCHELLS are vacationing in Fostoria, Ohio...ELMER GARRETT underwent an emergency appendectomy last week...

JAKE WILLIAMS' vacation took him to the Wisconsin State Fair.. HERSCHEL WEBB has Two Weeks coming up but we don't know his plans. However, if JIM ROMAN has anything to do about it, they will probably include some fishing...HARVEY MILNER has been transferred to Dextran. We welcome back EDGAR (SNAP)HILBERT...Since squirrel season opened August 15th, our squirrel hunter WILLARD ARMSTRONG is carrying squirrel in his lunch every day...If anyone knows about the birds and bees - especially Bumble bees, they should get together with SI RAYHEL....ARMIE BAILEY began working in Methylamine Monday...

PURCHASING DIVISION

PAT BURCHFIELD returned from a lake vacation, full of wim, wigor and witality..... Justine NEVINS, thru the kind donations of her many friends, has a well-filled cupboard...PAT LITTLE is back at her desk following a circuitious route to the Clinton hospital. She emerged appendixless..

NON BEVERAGE NEWS - J.T.SABLA, Jr.,

"PAUNCHO" LUCAS certainly made the fellows in Non-Bev scatter when he turned loose a full alcohol drum that had a large hole in it..."POSSUM" HUNT spent his vacation at the Vigo County Fair checking stock and equipment. The "Fair" fever seems to be all around us. RUSS KINDLE entered his prize bull after he caught it. "SLIM" LATHAM entered a chicken so he might avail himself of free passes. Two fellows, however, who aren't too involved in the Fair are C.F. KAST and ZAFF ROGERS. Both are too concerned with their work. Things in the government office may take a turn for the worse when ZAFF leaves for Merchants. Everyone welcomes EVERETT EVANS who is taking Zaff's place and will help KAST decide what month it is.

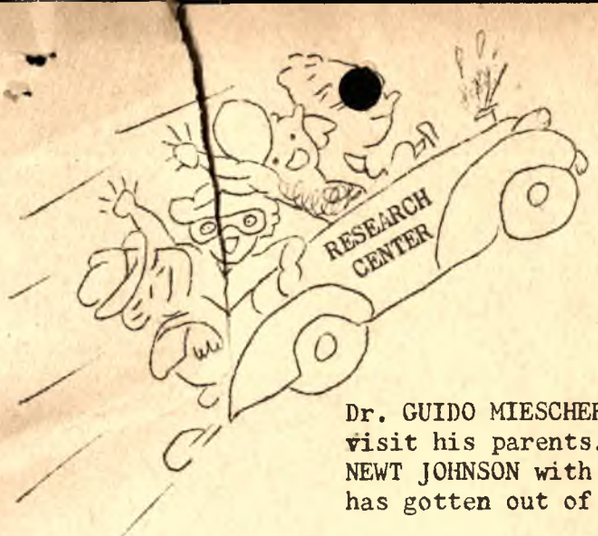
PETE LATTA, who is taking his vacation at the end of the month, has decided that he has worked hard enough this past year to entitle him to a trip to Niagara Falls and Canada.... Now that the new floor has been laid in Nonbeverage, everyone is ready for a big dance. "MAC" would like to enter in the fun but he cannot as yet get around too well with his cane. August has always been the eighth month, but this year it was the ninth to SABLA. It may turn out to be the ninth month for DEAN NEWLIN too, but for a different reason.

CHEMICAL PILOT PLANT - AL NECKAR

Altho we don't know how HERMAN LUKEN is spending his vacation , we'll bet it's at the ball game...For cold morning showers, BUCK BYERS and MAX BAILEY are enthusiastic advocates...EARL WRIGHT must have been watching too many tumblers on T.V. He tried an imitation and c ame out second best. The floor wasn't damaged at all...JOHN BITTS must not have had any luck squirrel hunting so far. If he had had, we would have known it. We can't see him sitting at home when the season is open.

PENICILLIN FINISHING

Welcome to the new people in Finishing Department - JEAN ARCHER, CATHERINE BRIDGES, IMOGENE GREEN, ALBERTA COOPRIDER, MARILYN CRABB, WINNIE DUNIGAN, MARILYN KRESS, MONA WALTERS, FRANKIE WATSON, MARTHA WHITT and RITA FLYNN...School bells will soon ring again for PHYLLIS LATHAM (DePauw), JANET MCINTYRE (Indiana State Teacher's College) and NOLL SANDERS (Alabama Polytechnic.)...BILL SULLIVAN is enjoying his three weeks' vacation. Destination, plans,unknown...JIM WATSON spent two weeks with the National Guard in Michigan...GEORGE and ANN HART took in Saint Louis with emphasis on the zoo. They also did Indianapolis...Also vacation-minded are RUBY TUCKER, AVON COOPER, VIOLET UFFEN, NELLIE HARDING and VIRGIL MOODY...JOAN JOHNSON COX is counting the days until her husband Paul comes home on furlough...A new product idea was developed when a stencil was cut reading PEPICILLIN instead of penicillin. We could all use a dose of any new wonder drug called PEP-icillin... MARJORIE and DON LATHAM are proud owners of a new '53 Chevy....ELVA DEETER spent last week with her daughter in Fort Wayne...



BETTY HUGHES WITH RESEARCH FINDINGS

MRS. OLEDA GOLDHARDT became secretary to Dr.KLUSSENDORF and HARRY WILSON on August 11th. Her husband is with Quaker Maid Co. DR. WENDALL FARROW was also welcomed to the fold on August 13th. ADA MAE DAVIES & DOROTHY MEDLEY enjoyed an auto trip to Muskegon, Michigan...MARGUERITE AARON (Pharmacology) and husband returned from a Kentucky vacation. They recently moved into their new home, purchased from DR. ALFRED STANLEY, former CSCER. By the way girls, they brought back with them from Ky an 18 year old nephew, BILL, who is working at the Citizens Telephone Company. He's anxious to make friends here in his new home...DR. SPENCER began a two-weeks' leave August 17th..LEONARD FAGAN who has been working for Dr. SPENCER this summer will go to Texas with his parents for a visit, then to Colorado with some medical students before school starts. He is in medical school at the University of St. Louis.

AUSTIN MANHART who has a very active 4-H daughter, spent the first week of his vacation at the County Fair. The second week they managed to get to Shafer Lake..LYNN MOSEMAN, with the distinctive sideburns, will occupy a spot in the BILL JOHNSON dungeon until he returns to Indiana State this fall...It's a Scottsbluff, Nebraska vacation for the RAY OLINGERS and son, MITCHELL...FRITZ DANGA is enjoying a wonderful vacation visiting with Latvian friends in Minneapolis, Milwaukee and Grand Rapids..

Dr. HOMER E. STAVELY has been decorated with a one-star button indicative of five years of service with CSC.

(Editor's note: An orchid to BETTY HUGHES, who thru the months has done such an effective job of reporting research happenings. A reporter such as Betty is a a boost to any harrassed editor. Keep it up, honey.)

DEXTRAN SHIFT NO. 1: We welcome D.J.BUDD, JIM BURNS, EUGENE SCHUMAKER & H.KIMMEL.
DEXTRAN SHIFT NO. 2: New additions here are JOHN LOVELLETTE, HARVEY MILNER, GLEN WORLEY and JACK LOUDERMILK...

PROUD GRANDFATHER DIVISION

ELMER HUPPERT hit the jackpot!!!!!! Twin granddaughters and a grandson! And all in a week's time! The twin daughters- SALLY ELIZABETH and NANCY LEE were born August 15th in Washington, D.C., to his son and wife. The Huppert daughter - Mrs. WM LUTZ- furnished the grandson - 8 pound DAVID CHRISTOPHER in Terre Haute. The twins have an older sister SUSAN GAIL.

HAROLD HENSCHEN became a grandfather when his daughter,CONNIE, presented him with a beautiful little granddaughter. The almost 7 lb gal was named TERI KAY and arrived early in the morning of August 19th.. The parents are Mr. and Mrs. RONALD BLAND.

DEXTRAN LABS IN PENICILLIN PLANT

WELCOME TO: DAVID DAVIES, new senior tech in fractionation lab. Will be a good ten-percenter, we hope...WILLIAM COLLENBAUGH and NORM CARLSON will aim for 6% clinicals...DALE JOHNSON and RONNIE PRATT will help scatter the ultra violet... DANI PESTOFF will help ART CLINGERMAN in cutting dextran and rotating light...

TROY RICHEY apparently hasn't much faith in his wife's cooking. He took JACK CHURCH'S full lunch bucket home with him.. JIM SMITH returned from vacation - HAPPY to be back at work...ART CLINGERMAN is now on a lazy leave...SORRY TO lose BILL SISSON, PAUL ORMAN and JIM COLLENBAUGH who "unfortunately" will be required to work ONLY days...

MAIN OFFICE - MARTHA GRAY

DEWEY"WHOZITS" is going to Colorado this Saturday via choochoo; will meet the in-laws and go vacationing...JIM DAILEY, new comer to this department, but long time with CSC - now occupies the desk which ADRIAN RAY had. JIM is a fast dealer in cars - not cards - . His downfall is flipping for cokes. Not good. JIM will go Californiaward for two weeks...Never a dull moment - interest in the office is rapidly changing from baseball to bowling. STELLA WRIGHT was called to Washington, D.C. by the death of her sister...MARTHA GRAY and husband are now vacationing in the East with Niagara Falls and Canada a Must on their schedule...

BILL MCMAIN had a stay-at-home vacation last week...ADRIAN RAY is now moved into the accounting department, southwest corner, formerly occupied by EIB TINGLEY who has gone - desk and all - to the Maintenance Engineer's office

Our sincerest sympathies to the HARRY HUNTWORKS in the death of their son-in-law, Maurice York...to Cpl. ALEX CHERVENKO in the loss of his father; to STELLA WRIGHT in the passing of her sister.

CONGRATULATIONS

CONGRATULATIONS DIXIE!!

On October nineteenth the Dixie Plant celebrated the seventh anniversary of the purchase of the Dixie Ordnance works and also dedicated the twenty million dollar expansion.

Practically everyone of importance attended the soiree, which included Prexy WOODS, MAYNARD WHEELER, some of the directors, and many customers and friends. Senator Ellender spoke on national and international affairs.

Following a plant tour in the morning, the group swooped down upon the new club house where barbecued chicken and the fixings were served. Three tents were pitched; the 45 foot barbecue pit was groaning with 450 chickens. With the chicken was a traditionally Southern menu of blackeyed peas,, baked beans, hush puppies, potato chips, relishes and coffee.

A 30-minute T.V. program showing interior shots of the Dixie plant,and introduction of some of the top brass, "did more for C.S.C." (according to the Dixie Circulator) "than Marilyn Monroe did for calendars."

CONGRATULATIONS PEORIA WATCH-GETTERS!!!

Congratulations to forty-four members of C. S.C. at Peoria who received their Twenty-Year watches at a dinner, held October fifteen, at the Pere Marquette Hotel. Plant Manager TOM WALTON was Toastmaster; MAYNARD WHEELER, in the absence of J.A. WOODS, was the speaker. One of his bright quotes was the one which HERB SHRINER was supposed to have made - "You take the annual banquet away from most organizations, and they ain't got nothing left."

In summing up his talk, Mr. WHEELER, quoted from Elbert Hubbard, a creed which he himself (Wheeler) has taken as a norm. It reads: "I believe in the stuff I am handing out; in the firm that I am working for; and in my ability to get results. I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job. I believe that a man gets what he goes after; that one deed done today is worth two deeds done tomorrow; and that no man is down and out until he has lost faith in himself. I believe in Today, and the work I am doing; in Tomorrow and in the work I hope to do; and in the sure reward of the future."

T.S.CARSWELL, Vice President in charge of Research, made a few comments at the dinner. In his opening remarks, CARSWELL said "A few weeks ago, I read a statement by a very distinguished man named Beck. He stated that what may be going on in some obscure laboratory in the country today, may be much more important than anything that is going on in the Congresses and Senates of the world, or the Board of Director's meetings, or offices of bank presidents."

In mentioning Dixie Plant, Mr. Carswell also saluted "CASEY" STENGEL as follows: "...You all know a somewhat crazy scientist who used to work here (Peoria) by the name of CASEY STENGEL. He is in the Research Department now. About five years ago he thought up the idea that he could take hot nitric acid and anhydrous ammonia and put them together through a column and come out with the ammonium nitrate process which would be cheaper and simpler than anything anyone else had developed. Nobody paid very much attention to him at first, but he did show it could be done in the laboratory. Afterwards it was demonstrated on a larger scale and it culminated with this Company gambling about four million dollars that the idea was right. It has just been proved down at Sterlington that the idea was right and that we probably have a cheaper and better ammonium nitrate process than the world has ever known before....."

HOMER KIEWEG presented the watches to the forty-four members of the class. Quite a number of the Terre Haute CSCERS enjoyed the activities. Again Congratulations!

CONGRATULATIONS, COLONEL KING!

EDWIN D. KING (Office Manager) received a promotion to full colonel in ceremonies Thursday night at the 5966th U.S.Army Reserve Schools.

In this connection, WAYNE PLIMMER was recently made Lt. Colonel; GILBERT ATKINSON promoted to Major.

CONGRATULATIONS BILLY G. SMITH

BILLY G. SMITH, CSCER in KOREA, was awarded the Bronze Star Medal for heroic achievement displayed while serving with the 17th Infantry in Korea, July 8th. BILL was one of the first in his unit to hit the enemy lines near Sokkogai. Smith charged & destroyed the fortified enemy positions. Bill is the son of BOB "PIPEFITTER" SMITH.....

IMOGENE that is....GEORGE and ANN HART, "BRUCK" and JEAN BRUCKER, enjoyed the Ice Show at Indianapolis last Saturday evening....

HAND-MADE GIFTS FOR CHRISTMAS

We want to salute MRS. "SLIM" LEON for overcoming handicaps which would have discouraged the bravest soul. A sufferer of arthritis for years, Mrs. LEON is still in there pitching. She came down to the plant with "SLIM" Wednesday and had with her some very lovely handwork which would make excellent Christmas gifts. Among the articles were handkerchiefs, embroidered pillow slips, vanity sets, crisp organdy tea aprons and Hen potholders. For information, either write Mrs. CHARLES LEON, R.R. 1, Rosedale,Indiana or phone Spirit office #224.
